## CITY TO SEEK ASSIGNMENT OF CONTRACT

Council Orders Attorney  
To See Garbage  
Contractors

MAY BE ADJUSTMENT

Parties to Latter Deal  
Called to Adjustment  
Meeting

Two contracts received some attention at the hands of the city council Thursday night. One was a garbage contract, the councilmen adopting the recommendation of City Manager Reeves that the city attorney be instructed to begin suit against Martin & Lord for the assignment of their contract to the city.

The other was a contract made in 1919, under which the city was to acquire the water owned by the Verdugo Water company, with the understanding it was to continue water service to the patrons of the company. The city manager recommended that the city attorney be instructed to make a demand on the parties to the contract for the conveyance of the property involved and report to the council at its next meeting. It was stated that there is a prospect of a satisfactory adjustment of the matter at a conference to be held in the council chamber next Wednesday evening between the water owners, users and city officials.

## ROTARIANS HEAR FROM C. C. COOPER

Absent Member Will Re-  
turn in Few Weeks  
He Declares

At the Rotary club luncheon Thursday, at which covers were laid for twenty-five members and six visitors, an interesting letter from C. C. Cooper, postmarked Broken Bow, Neb., was read, in which he told of visiting Rotary clubs in the course of his travels, and said his next stop would be Omaha. He also stated that he would be back in Glendale by March 15 or April 1.

W. B. George, a Rotary visitor from Billings, Mont., gave a talk on what the Rotarians stand for and mentioned that out of his family of eleven, seven had moved to California, and he thought it not improbable that the seven would soon be increased to eleven.

Arthur Dibbern was the member appointed to give a talk on his business (jewelry). He gave an interesting exposition of the effect of present commercial conditions on that line of merchandise.

Vice-President Kent, who acted as chairman in the absence of President Cooper, appointed Gil Cowan as corresponding secretary. One of the matters discussed was the 23rd district conference which is to be held March 16, 17 and 18 in San Francisco. Three special trains will go from Southern California and a special rate of one and a half fare for the round trip has been made by the railroad.

## GAS PROBLEM AT WOODLANDS IS SOLVED

District Gets Both Im-  
provements by Ten-  
tative Agreement

Water and gas will be supplied to the Verdugo Woodlands by a tentative agreement effected between the Woodlands Improvement Association gas committee, the city council and F. P. Newport, coming as a direct result of the recently organized efforts of the new association.

Under the agreement, Mr. Newport transfers the option to purchase the water plant at the Woodlands to that district, the city never having concluded the option. With the money paid for the plant Mr. Newport pledges himself to make the connection to bring water to the district.

In time the cost of the connection will be reduced to the city by the company. The agreement will require working out and approval, but its essentials solve the problem.

## Thinking Is Great Thing Says Foley in "The Listening Post"

Because Hollywood happens to be the scene of a murder there seems a tendency to put that section at the bar of justice as though it were collectively responsible, says Henry James in his comment on the day's news this evening. He says that probably there has been nothing so contemptible achieved by the yellow school of journalism than in its exploitation of the many intently personal matters it has revealed in the Taylor murder case. Mr. James expresses his viewpoint in no uncertain terms this evening and whether you agree with him or not you will find what he has to say quite interesting.

James W. Foley in "The Listening Post" says that thinking is a great thing, that it is well to dig down into things for yourself and make discoveries of the truth. He asserts that the same chance for original research and discovery is open to the people of today as at any time in the world's history.

If you turn to the editorial page you will find an article by Dr. Frank Crane in which he says that there has been and always will be a great famine of the essentials and necessities. "There is," he says, "allways has been and always will be a glut of the superfluous." He also says that nothing is more needed in this world than good cooks, good housekeepers and good mothers.

Turn to the editorial page tonight and you will find a wealth of good reading.

## LOCAL SUMMARY

Glendale—Baptist women hold quilting bee.

Glendale—Mothers attend Pacific P. T. A. Mrs. Kittredge makes address.

Glendale—St. Mark's Guild to hold open house.

Glendale—City council decides to push Brand boulevard grade crossing.

Glendale—Police arrest Albert F. Roberts and D. M. Woods, found in possession of stolen auto.

Glendale—Columbus P. T. A. celebrates 25th birthday.

Glendale—City council decides to push Brand boulevard grade crossing.

Glendale—County problems discussed at Thursday club.

## AT WASHINGTON

Washington—Democrats plan to obstruct passage of the four power pact.

Washington—Disposition of German cables is studied.

Washington—Legion may reject President's bonus plan.

## NEWS BY CABLE

London—Sinn Feiners release 42 Unionists.

RAWSON IS TO BE KENYON

DES MOINES, Iowa, Feb. 17.—Charles A. Rawson of Des Moines, state chairman of the G. O. P., was today named United States senator from Iowa, to succeed William S. Kenyon. Appointment of Rawson was made by Governor Kendall this morning, following receipt of the resignation of Kenyon, who quit the senate to accept the judgeship of the eighth federal circuit.

MARINES KILLED IN NICARAGUA

SAN DIEGO, Feb. 17.—Several United States marines and a score of Nicaraguans have been killed in recent fighting in Nicaragua, according to word brought here by the naval transport Nitro. The last clashes occurred last month and were due to ill feeling between the natives and the United States troops, it is said.

ALASKA FISHING UNEMPLOYMENT

SEATTLE, Feb. 17.—Early recruiting for the coming Alaskan fishing season has developed that the unemployment problem has spread to that territory. Practically all of the men needed for the industry this year are being found without recourse to the outside, as had been the case heretofore.

## BRAND BLVD. CROSSING IS ATTACKED

City Engineer Instructed  
to Initiate Proceedings  
to Lower Tracks

P. E. PART OWNERS

City Manager Reports on  
Proposed Street Im-  
provements

As usual, considerable time was given to discussion and action relative to street improvement at the meeting of the city council Thursday night, and the fact was noted that the present council has accomplished about four times the amount of street improvement done by any previous board.

The reports of City Manager Reeves dealt chiefly with these matters. For instance, he stated that Central avenue south of Broadway is in a dangerous condition on the east side and it will be necessary to change the grade to properly prepare it for paving, recommending that the council initiate proceedings to change the grade. After brief discussion councilmen voted to pave Central from Broadway to San Fernando road.

The Brand street crossings were also the subject of recommendations by the city manager. He stated that the title to the crossings was vested partly in the Pacific Electric, and he recommended that the city engineer and city attorney be instructed to look into the question of ownership with a view to instituting proceedings to bring the tracks to grade. The recommendation was adopted.

A communication from Stocker street residents complained of the dangerous condition of the street because of storm water which has washed out holes and ditches, making it unsafe for travel. Councilman Lapham endorsed the complaint and the communication was referred to the city manager.

A petition was read from property owners for the improvement of Brand between Colorado and Windsor and asking that Wilshire or some similar material be used. On motion of Councilman Davis the city engineer was instructed to start proceedings for the improvement of the boulevard from Colorado to Windsor, in accordance with the petition.

## HOOK AND LADDER IS DEMONSTRATED

New Fire Fighting Apparatus Put Through Paces for Council

A demonstration of the new hook and ladder apparatus for the Glendale fire department was given to the members of the city council, City Manager Reeves, etc., last night at 10:30 o'clock, after the regular council meeting. This wagon was made entirely by the boys of the Glendale fire department out of a machine that had seen its days of usefulness. The entire cost of the apparatus to the city was about \$3,000, while a new hook and ladder wagon, which would have not done a bit better work, would have cost at least \$9,000.

This is the only apparatus of its kind that, as far as is known, has ever been built by members of any fire department outside of New York city. The frame of the old machine was lengthened and every worn part replaced. It took the boys two months to make the change, under the supervision of Fire Chief Lankford. In addition to carrying the ladders, this apparatus will be equipped with several chemical tanks.

## 1ST M. E. CHURCH TO HOLD BANQUET THIS EVENING

Dr. Byron H. Wilson of  
Los Angeles Will Be  
Principal Speaker

The banquet this evening at the First M. E. church promises to be more than an ordinary interest. The kitchen police, captained by George E. Jeffries, are promising an unusually appetizing menu—oyster stew, rolls, butter, salad, doughnuts, apple pie and coffee.

The principal address will be by Dr. Byron H. Wilson, superintendent of the Los Angeles district. There will also be talks by Dr. W. B. Collins, City Manager Reeves, Rex Kelley and others.

There will be music by a male quartet and by the trio of Percy brothers.

## SID HATFIELD'S WIDOW WILL GUARD NO. 3

Mrs. Sid Hatfield, after losing two husbands in Mingo county's industrial war, has left Matewan, W. Va., with her third husband, Sylvester H. Pettry, member of the state constabulary. "A man's chances are not good enough here," said the widow-bride. "Two of my husbands have died in this country in 18 months."

## POLICE ARREST AUTO THIEVES

Caught on Brand Boulevard Men Confess to Theft

With a stolen car in their possession, Albert F. Roberts, 338 South Flower street, and D. M. Woods, 611 Long drive, San Gabriel, were arrested last night at 10 o'clock at the corner of Brand boulevard and Wilson. They acknowledged that the car had been stolen from Clark's garage, 926 South Flower street, Los Angeles. Roberts is charged also with reckless driving and Woods' offense, in addition to having the stolen in his possession, is being intoxicated. Both of the offenders were locked up in fire house No. 2.

Mr. Mitchell, owner of the car, telephoned to local police headquarters at 11:30 o'clock, stating that he would be out to get the car this morning.

## SINN FEINERS KIDNAP 42

LONDON, Feb. 17.—Forty-two Unionists kidnapped from Ulster by Sinn Fein raiders have been released through efforts of Michael Collins, it was announced in common today by Austen Chamberlain, government spokesman.

## BUS LINE BOND ISSUE PROGRESS

Should Lose No Time in Calling Election, Says Councilman

That routine matters had not crowded from the minds of members of the city council the transportation problem of the city was evident when Councilman Davis asked City Attorney Woodard at the board meeting Thursday night how long a time would be required to call a bond election to vote funds for the establishment of a municipal bus line. He replied that he did not know exactly and was instructed to find out how soon it could be called and report at the next meeting. Councilmen Lapham, Kimlin and Davis each declared their opinion that no time should be lost.

## COMPANY M WINS

Company M and Battalion Headquarters company, Glendale National Guards, held their regular drill Thursday night on the high school campus and they drilled exceptionally well. Prior to the drill, part of the articles of war were read to the men concerning enlistment, desertion, absent without leave, etc. Sergeant Instructor Knowles was highly pleased with the drill.

## Playing the Game

The county board of public utilities now take seriously the Glendale application for a permit to operate a municipal bus line to Los Angeles. The hearing on the application will be held. The attitude of the board is now that of co-operation. The talk of precedence which must be considered has ceased. The board is down to business with the Glendale city council.

This is as it should be in appreciation of the sane logic of the council and its transportation expert, Mr. Gulick.

There was no expenditure of energy in dynamic threats, arraignment of the board, vituperation and public embitterment.

The means to the end was sought. The public support was secured. And the presentation made.

It is possible the board was misled in secret advice that the merchants of Glendale did not wholeheartedly wish the Pacific Electric fares reduced. It might have believed the council was not sincere in its first presentation. It is not altogether impossible that whispers to this end reached the members of the board and they might have been besought to play politics.

However, the play is in the open now. The cards on the table, face up. The board is ready to play the game of co-operation between the sister cities.

Observing the entire change of attitude, it is not without the bounds of probability that the Pacific Electric will also reconsider its policy toward Glendale. In fact, judging from the logic of the situation, the Glendale Press would not be surprised to see the fares back to the old rates. It is just possible the Pacific Electric management believed it, too, was helping the merchants of Glendale by raising the fares and consolidating the community upon its own resources. Glendale merchants, however, are too far-sighted not to see that the lower fare the larger the community and the greater the volume of trade, although probably some of their casual patrons will make purchases in Los Angeles. They are not, as a class, that sort of business men who sit up nights figuring how much richer they would be if they could only sell everybody to the limit of their last cash possibilities.

Glendale merchants are doing a nice business, not getting all the trade, of course, but trying hard for it. They do not require strong-armed trade provocateurs.

## U. S. READY AS MEXICAN WAR BREWS

American Soldiers Now  
Guarding Border Ow-  
ing to Uprising

BLAME AMERICANS

Reported Revolutionists  
Will March on Juarez,  
Mendez Refuses

EL PASO, Texas, Feb. 17.—Five thousand American troops in this border territory were on the alert today to guard American territory against violation following persistent reports of revolutionists preparing for action in Mexico.

Brigadier General R. L. Howze declared American forces had been forced to take heed of revolutionary reports, frequent of late. Rebels gathering near Chihuahua City have the intention of marching on Juarez, reports here said.

General J. J. Mendez, commanding troops at Juarez, sent word to revolutionists declining to join them and prepared his garrison to oppose any attack that might be made.

Esteban Cantu, former governor of Lower California, under Caranza, was said to be one of the leaders—if not the principal leader—of the rebel activities. Although the reports that several rebel bands in Chihuahua—rebel nest in Mexico for a decade—were attempting to concentrate and attack Juarez, there was some doubt expressed on both sides of the river that this city would be the first objective of the plotters.

Word was sent out today to all American authorities along the border to tighten their lines against smuggling of arms into Mexico. They were also instructed to combat any attempted plotting by Mexicans on this side of the line.

Dispatches or other word received from Interior Mexico, quoted Mexican officials including General Calles, Obregon's minister of state, as declaring American interests were behind the trouble.

Last reports of Cantu's movements in the United States were that he was in New York trying to raise financial backing for Mexican revolt. Reports of unrest

## CITY FATHERS ARE INVITED GUESTS

To Attend School Opening,  
Musical and Fire  
Depot Opening

Three interesting invitations were received by members of the city council Thursday evening, all of which were accepted by formal vote.

The first one read by the city clerk requested attendance on the dedication exercises at the new Grandview school site which are to be held February 22.

A second invitation was from the Glendale Music club inviting members to attend the birthday celebration of the organization to-night in the auditorium of the chamber of commerce.

A third was from Chief Lankford of the fire department, announcing that the ladder truck which the men of the department have been building is now completed and ready for the inspection of city officials. This truck has been constructed out of the old Knox engine No. 1, the first engine Glendale bought which has been in service since 1907. When it was ready for the discard by reason of the purchase of up-to-date apparatus, the chief suggested its transformation and has succeeded in bringing it about with the assistance of the men of the department. Its pump has been removed, the body has been extended to double its length. The city has thus acquired at a small cost a serviceable ladder truck that if purchased new would cost not less than \$9000. In his letter the chief stated that such a feat had never been accomplished by any fire department with the single exception of that of New York.

Council members were greatly interested and voted to visit the station immediately following adjournment.

## OUT-JOBED JOB

SAN FRANCISCO, Feb. 17.—Dominico Grepo was a patient man. He stood by in silence while the neighborhood cat secretly killed his rabbits. He continued to be patient until the cat had killed 75 of them. Then he got a shotgun and killed the cat. The cat's owner had him hauled into court. The cat's owner said the cat was worth \$150. Judge Lazarus decided that Grepo had a right to kill the cat, but fined him \$5 for firing the shotgun in the city limits.

## ODD JUST GOOD

## NEWS

### FIVE MICHIGAN ATHLETES INELIGIBLE

ANN ARBOR, Mich., Feb. 17.—Five Michigan athletes have been declared ineligible because of low grades.

### TWO BELOW ZERO IN NEW YORK

NEW YORK, Feb. 17.—The coldest weather of the winter—two below zero—hit New York today on the heels of storms and gales that swept the Atlantic coast yesterday.

### GAIN LAP IN BIKE RACE

CHICAGO, Feb. 17.—Reggie McNamara of Newark, N. J., and Ernest Kockler of Chicago, gained a lap in the six-day bike race last night and are leading today with 1,589 miles, three laps and 272 points to their credit.

### DEATH ROLL 35 AT BELFAST

BELFAST, Feb. 17.—The fierce sectarian war that swept Belfast early this week had burned out today, leaving the city to face a death roll of 35, a casualty list of nearly 150, and a bill for damages that will exceed \$2,000,000.

### THREE KILLED IN AUTO ACCIDENT

DURHAM, N. C., Feb. 17.—Three students of the University of North Carolina were killed and three others were perhaps fatally injured near here early today when the automobile in which they were riding was struck by a Sea-board Air Line engine.

### MINERS TO TAKE STRIKE VOTE

INDIANAPOLIS, Feb. 17.—The strike vote of 500,000 coal miners to be taken within the next six weeks unless mine owners agree before April 1, to continue the present basic wage scale undoubtedly will favor suspension of work then, union officers said today.

### CHICAGO BOWLER TAKES LEAD

CHICAGO, Feb. 17.—H. Marino, Chicago, took the lead in the world's classic bowling championship tournament here today with 306 22-50 points in 70 games. F. Kaffera, Chicago, is second, with 302 7-50 points in the same number of games, and S. Thomas of Chicago is third with 296 38-50 in 65 games.

### MEXICANS ARE NOT WORRIED

SAN ANTONIO, Texas, Feb. 17.—Mexicans here representing the Obregon government refused to express alarm today over reports of revolutionist activities on the Mexican side of the Texas border.

Abregon representatives said they had no advice that former Governor Cantu was heading a revolt and declared lack of a general leader would be the most serious drawback to any general revolt plans.

### SAY MCCORMICK GIRL TO WED

NEW YORK, Feb. 17.—A rumor that Mathilde McCormick, 15-year-old daughter of Harold P. McCormick and his divorced wife, Mrs. Edith Rockefeller McCormick, was to marry Max Oser, a Swiss riding master, was in circulation here today.

## 51 BID ON GRAND VIEW SCHOOL UNIT

Board of Education Refer  
All to Building  
Committee

Routine business occupied members of the board of education at their meeting Thursday night when 51 bids for the Grandview school was opened. They were referred to the building committee.

President David Hibben and Mrs. A. A. Barton for checking and report at the next meeting.

Mr. Pemberton, representing the Pemberton Heating company appeared before the board to explain his system with a view to its use in new school buildings.

A letter was read from the school committee of the Foothill Improvement association of the Grandview district, inviting members of the board to attend an arbor day affair Wednesday, Feb. 22, when trees are to be planted on the new school campus. The invitation was accepted with thanks.

The matter of the Eagle Rock children who have been attending the Broadway school was referred to Superintendent White with the suggestion that except where it will work a great hardship, such pupils be requested to go to the schools to which they belong in Eagle Rock because of the crowded conditions at Broadway.

The matter of employing a school nurse was mentioned but went over for another week.

The board decided to have the spring vacation of one week begin the 10th of April.

Miss McKay of the Cerritos Avenue school was appointed to playground work in the afternoons.

Mr. White was instructed to advertise for sealed bids for the houses which are to be removed from lands recently acquired for school purposes.

## CITY MAKING ART TOLD OF AT FORUM

Dr. Bird Discusses New  
Note in Community  
Building

MANY TOPICS HEARD

Vigilante Committee  
Organizes to Get  
After "Knockers"

The art of neighborliness, loneliness of some newcomers in Glendale, need of lowering the tracks on Brand boulevard, and paving from Colorado boulevard to the north line of old Tropic, and the organization of a vigilante band to corral new members or drive opposition over the Los Angeles river, were the high notes touched at the first public forum dinner of the chamber of commerce last night.

Every chair was filled when the dinner began. Outside, a flock of automobiles were parked for a block. Almost every man and woman of prominence in Glendale who could, was at the dinner.

In the course of the after-program, Secretary Rhoades declared that every member had received a letter asking for suggestions for work of the chamber of commerce and but no had replied. The replies had suggested improvements

(Continued on page 6)

## BROADWAY P. T. A. RECEIVES FATHERS

Mrs. Robinson Is Chosen  
to Head Musical  
Affairs

The Broadway P. T. A. met Thursday night in the auditorium of the school, the meeting being a reception to the fathers. A short business session was held and a committee was appointed that would assist the ladies in raising money for beautifying the school grounds. The committee included Mrs. Wilkinson, chairman; Mr. Spencer Robinson and Mr. A. J. Van Wie. Mrs. Spencer Robinson was also chosen as a committee of one to take charge of musical affairs, and it is expected that a musical will be given in the near future.

The business meeting was followed by a program which was opened by a patriotic song, sung by the fifth and sixth grades. Patriotic flags were used throughout the auditorium in decorating and the new stage curtain was used for the first time. Marie Johnson gave a very pretty "Rose Dance" which was followed by a reading, "When de Folks Come Home" by Kenneth Lewis. Doris Forbes then gave a whistling solo and James Edmonds a violin solo. A vocal solo was given by Joseph Rhoades and Little Ann Elizabeth Wilkinson gave a Gypsy dance. A reading followed, given by Lois Whiteman and a piano solo by Miss Spear. After this delightful program, refreshments were served. Mrs. C. A. Bowlius, president, presided over the meeting and reports were read by the secretary, Mrs. Lewis.

## CITY ATTORNEY SEEKS ACTION ON HIGH ALLEY

Council Defers Decision  
on Recommendation  
of Mr. Reeves

Because the matter has been so long on the calendar and because of his desire to have it disposed of, City Attorney Woodard was instrumental in having the question of the widening of what is known as the high school alley revived by a resolution which came before the city council ordering the work to be done.

Deeds for the necessary land have been given by all the abutting property owners, it is said, save one, who refuses to follow the lead of the others. To put the matter through through condemnation proceedings will be necessary.

Councilman Stephenson declared he would never vote to entail that expense on owners who had already generously given their portions of the land.

City Manager Reeves said the expense could be assessed against that owner, and the matter went over for further investigation.

## THE WEATHER

Southern California: Tonight and Saturday, fair.  
Los Angeles and vicinity: Fair tonight and Saturday with moderate temperature.

## COUNCIL ABANDONS L. A. STREET WORK

An ordinance abandoning the proceedings in connection with the opening of Los Angeles street north from Park avenue, was adopted at the council meeting Thursday evening. This action was taken because of some mistake or defect in the proceedings. Los Angeles street runs north and south between the Southern Pacific tracks and San Fernando road. The extension of the street

was desired by Mr. Salyer, who has land abutting upon it which would be benefited, but it was opposed by Edgar Ayers from whom the land for the street was to be taken. It is said the two have reached an agreement and that Mr. Ayers will no longer oppose it if proceedings are renewed.

You can never be a big man to the boy that went to school with you, but your old teacher will tell everybody that you are a lot bigger than you are.

Corner E. Colorado and Glendale Ave.

## U. S. READY AS MEX. WAR BREWS

(Continued from page 1)

In Mexico have been increasing for several weeks and observers have predicted that President Obregon is facing a real test of power. Disturbances by roving rebel bands of Northern Mexico where most all revolutions of the past have been started, have been more aggravated by serious industrial and political trouble in Puebla.

The attitude of Francisco Villa, former bandit, was causing ploters against Obregon to end of worry today, however. He was said to have declined to join an anti-Obregon move.

The danger of attack was held particularly acute at Juarez, across the border from El Paso. Officials said orders for troops to be on the alert to protect American interests originated after several Mexican bandit raids, the climax coming February 8, when Mexicans crossed the border and attempted to hold up an express train.

Since, then, unverified reports have come of revolutionary gatherings at Chihuahua and other points south of Juarez.

## OAK BATTERY QUARTERS READY

SAN FRANCISCO, Feb. 17.—Manager Del Howard, Field Manager Ivan Howard, and Trainer Scotty Finley are at Myrtle Springs preparing quarters for the Oak battery men, who are scheduled to arrive tomorrow.

Several new features will be used in spring training this year, according to Ivan Howard. The other members of the Oaks squad are scheduled to arrive in about ten days.

Ray Brubaker, shortstop, leaves his home in Indiana on February 20. He will report to the Oaks March 1. Brubaker and Jack Knight are the only members left from last year's infield.

Any doctor could have a big practice if he would break down and weep with every patient over the latter's ills.

A cynical world doesn't really love a lover so much but it has a good deal of fun out of him.

## BAPTIST WOMEN HOLD QUILTING BEE

Grandma Bundick Is Surprised With Birthday Gift

The regular all-day meeting of the Women's Union of the Baptist church was held Thursday at the church with a splendid crowd of workers in attendance. Quilts were fashioned during the morning hours while everyone became better acquainted and the noon luncheon was served by District No. 1 to 60 members. During the noon hour the topic of the day was introduced in the form of Valentines, with items of the missionary work among the Indians upon them. These were read aloud and Mr. Ford told of his work among the Indians at this time. Mrs. G. H. Rowe, W. C. T. U. chairman, spoke of the work being done in Los Angeles by the W. C. T. U. A little surprise on Grandma Bundick of the Atherton Villa had been arranged by Mrs. Jennie Dose, who presented her with a growing fern as a birthday gift from the girls of the R. T. W. class. Mrs. Bundick responded in her sweetest manner with a speech of appreciation of the many folks who love her. A social time followed. The afternoon business meeting was opened with a song at 2:15 with Mrs. E. E. Ford, president, presiding. Mrs. C. W. King led in the devotionals, choosing her reading from Romans 1, 8—17. The secretary and treasurer then read reports and they were approved. Mrs. King, "White Cross" chairman, made a report on work done and to be done. Mrs. Percy, chairman of the calling committee, reported 163 calls that have been made and announced the work to be done in the future. Mrs. G. H. Rowe spoke of attending a meeting at the Tropico Presbyterian church of the Japanese Mission Board, of which she is a member. March third was announced as the United Day of Prayer in which the Baptist women are to cooperate. The scheme of the afternoon program had been carried out most successfully by Mrs. J. Roger Bentley and the several people present, who had lived among the Indians felt quite at home about the Indian decorations of baskets, rugs, and the general Indian atmosphere. Mrs. Beatrice Dose gave a wonderful piano interpretation of an Indian march, taking them from their teepees to their place of worship and back again. Following this Mrs. Fannie Christmas spoke of the Indians in New Mexico and Mrs. Peck spoke of the work carried on at the Bacone college.

Mrs. Paul Elliott gave a talk on the Sherman Institute at Riverside and an interesting feature was given by Mrs. F. A. Boynton, who was dressed in full Indian costume, and gave the 23rd psalm in the Indian sign language. Mrs. Paul Elliott sang an Indian solo and in closing Mrs. Ford appointed the nominating committee for the coming year. They were Mrs. Roy Kent, Mrs. J. Roger Bentley and Mrs. Marsh.

Mrs. M. Hubler and son Robert of 309 North Columbus avenue, are spending the week at Visalia.

Mrs. Elizabeth Smith of 415 West Elk avenue is spending the week at Long Beach with her son and his wife.

Mrs. W. R. Severance of Redlands, underwent an operation this morning at the Glendale Research hospital and is getting along very nicely.

Mr. and Mrs. J. Ray Bentley of 1361 North Columbus avenue left Tuesday for Salt Lake City. Mr. Bentley will attend the lumbermen's convention. They expect to return Monday.

Kenneth Christ, son of Dr. and Mrs. C. M. Crist, after three weeks of illness, is now able to be up and about the house. He hopes to be well enough to return to his studies in the University of Southern California next week.

Mrs. Mattie Russell, formerly of Kansas City, but now of Los Angeles, and her sister, Mrs. F. E. Bradley from Edgar, Neb., who is spending the winter here, were the Thursday guests at the home of Mrs. J. E. Henderson, 401 West California avenue. These three ladies are cousins and Mrs. Henderson had not seen them since childhood.

Magnolia P. T. A.—The Magnolia P. T. A. will hold a cooked food sale at "The Little Shop," 1021-A South Brand boulevard on Saturday, February 18th, beginning at 11 o'clock.

They call 'em "flappers" because they wear unbuckled goshes.

HEALING CREAM  
STOPS CATARRH

Clogged Air Passages Open at Once—Nostrils Cleared

If your nostrils are clogged and your head stuffed because of catarrh or a cold, get Ely's Cream Balm at any drug store. Apply a little of this pure, antiseptic, germ destroying cream into your nostrils and let it penetrate through every air passage of your head and membranes. Instant relief.

How good it feels. Your head is clear. Your nostrils are open. You breathe freely. No more hawking or snuffing. Head colds and catarrh yield like magic. Don't stay stuffed up, choked up and miserable. Relief is sure.—Adv.

## ORANGES MAKE DEBUT TODAY

Millions of Perfert Fruit on View at National Show Opening

SAN BERNARDINO, Feb. 17.—Millions of the finest naval oranges will be on display here at the Twelfth National Orange show, which opens today, and will continue until February 27.

Besides the displays of naval oranges, thousands of specimens of all varieties of fruits will be included in the exhibits.

Feature displays of unique distinctiveness will be placed by practically every community in the citrus district throughout the state.

Rack displays, containing thousands of boxes of the finest fruit, will stretch entirely around the walls of the mammoth fruit tent.

The entire show will be housed under three large tents.

The finest specimens of fruit will be placed on the display tables competing for the quality prizes.

One of the oddest displays will be that of more than 250 varieties of citrus fruits, which is being entered by the state citrus experiment station at Riverside.

Decorations will be in the spirit of early days of California. Throughout the tent California poppies will nod in stately beauty while huge statues of the native grizzly bear stand as sentinels at advantageous points throughout the exposition.

Another California effect will be added by a panoramic mission arch effect, which will open in front of each display rack.

A mammoth industrial section will be housed under one tent, while another will cover the automobile section.

The California Citrus institute will hold a session February 21 in conjunction with the orange show.

There is a "talking automobile" on the market. That's fair enough. Considering all the things that have been said to an automobile it ought to have a right to talk back.

## ANNOUNCEMENT

We wish to announce that we have been successful in obtaining the Exclusive Agency of the entire San Fernando Valley for selling and installing the well known Carbo Gas-Steam Radiators. Carbo Gas Steam Radiators challenge any other heating device made for efficiency performance and low cost of operation.

Steam for Heat  
Fumes  
Odor  
Soot  
NO  
Boiler  
Vents  
Basement  
Gas for Fuel

CAST, IRON  
STEAM RADIATORS

Automatic Unitary system of Steam Heating, using Gas for Fuel and requiring no water connections. Each Unit has a special type of BUNSEN BURNER. Each

Unit is fitted with a steam controlled regulator valve which automatically regulates the flow of gas, providing uniform temperature always, effecting a great economy in heating cost.

We carry a complete line at our Glendale Office and are ready to give demonstrations. We will cheerfully help you with your heating problems and put you under no obligation to buy.

**MRS. JESSE JOSEPH  
GAINES DAUGHTER**

Mrs. Jesse Joseph of 317 West Lexington, acquired a daughter Wednesday evening when her son, James L. Conrad, and Miss Margaret Dunbar Mitchell, also of this city, were quietly married in the study of Dr. C. M. Crist of the First M. E. church, in the presence of a few witnesses, including the parents of the bride. It is understood that they have gone to Laguna Beach for a honeymoon. Mr. Conrad is in the employ of the Temporal Agency of Los Angeles.

Whaleskin is so thick that it can be split into several layers, each as stout as ox-hide, and it is excellent for making boots, bags, harness or belting. The usefulness of the whale in this respect is not confined to his outer skin. The stomach furnishes a leather as soft and as strong as the best kid. Another important thing about the whale is that the whole of his skin is good. The skins of cows, horses, and other land animals furnish a comparatively small quantity of leather, for only certain portions of the hide are of the right quality.

A man sometimes will admit to other men that he is a failure, but no woman will ever admit to other women that her husband is a failure.

**"ACROSS THE LINE"  
AT THE GLENDALE**

The lure of the open spaces and the spirit of the wilderness are combined with drama and romance in the Universal special attraction starring Frank Mayo, "Across the Dead Line," which comes to the Glendale theatre today. It's one of Clarence Budington Kelland's stories, published in the Red Book magazine. For the production of the photoplay under Jack Conway's direction, Universal chose scenic points hundreds of miles away from Universal City. Supporting the star

**PLUMBERS LICENSE  
IS BOND FIXED****Local Association Gets  
Desired Action on  
Request**

A request of the local Master Plumbers' association embodied in a communication to the city council relative to the licensing of plumbers and presented at the meeting Thursday night, was granted in a vote on motion of Stephenson instructing the city attorney to draft an amendment to the ordinance licensing plumbers and fixing the license at \$75 a year with certain bonding conditions. Councilman Lapham voted no.

**INTERMEDIATE P.T.A.**

are Molly Malone, Josef Swickard, Russell Simpson, Wilfred Lucas, Lydia Knott, Frank Thorwald and William Marion—not a one of them but is known to every regular theater-goer in the country.

**OBSERVATIONS**

By the Oldest Inhabitant

Doesn't the procedure in a big murder trial seem more like a game than an attempt to have justice done? The prosecuting lawyers seem to start out on the theory that the accused is guilty beyond a doubt and that the attorneys on the other side ought to be ashamed of themselves for daring to introduce evidence to the contrary. There is a hoary old fiction, long since cast into the discard, seemingly, that in law a person is innocent until proven guilty. Was it not in the recent Burch trial that the defense petitioned the presiding judge to force the prosecution to turn over to the court evidence that favored the prisoner? I do not remember whether or no the request was granted, but isn't it a sad commentary on human nature that a lawyer would rather send an innocent man to the gallows than furnish evidence to clear him? I know I am an old, old fogey, but I hold to the firm conviction that a lawyer ought to think more of justice than winning his case; that taking money to defeat justice and convict an innocent man or woman is as bad as taking a bribe to commit any other kind of crime.

Street nomenclature shows some decided oddities. For instance, San Fernando boulevard in Burbank becomes San Fernando road the moment the line is crossed into Glendale, and it so continues in to Los Angeles. But Colorado street, Glendale, becomes Colorado boulevard, Eagle Rock, and changes back to Colorado street all through Pasadena. Many people think there is a Maple avenue in Glendale, and the P. E. crossing sign reads that way, but it is Maple street just the same. We have a Verdugo road, extending from the south limits to the junction with Glendale avenue, about eight or nine blocks north of Broadway. Then it becomes Verdugo Canyon road to the north city limits, which it intersects about half a mile west of Montrose, the last half or three quarters of a mile being unpaved. Branching off from it where the unpaved portion starts is Canada-Verdugo road, reaching to Montrose and extending on to La Canada.

I hope I will live long enough to see Orange a continuous street from Burchett to San Fernando road; Patterson avenue extending from Brand to Grand View avenue; Monterey road a continuous concrete boulevard from Verdugo road to the Burbank city limits, with a border of trees on both sides, especially along the Wash channel; and Mountain street extended east from Brand's castle along the foothills to Verdugo road about where Canada boulevard debouches from it. The two last named would be wonderful scenic drives that would attract many auto enthusiasts.

In the little city back east where I lived for several years, the streets are nearly all bordered with green trees "dressed in living green" all the spring and summer through, but this beautiful effect is marred by the jagged lines of residences on both sides. Each property owner places his house as far back or as close up front as he wishes, as there is no building line. Permits are unknown, and if required would bring very little revenue, as hardly one new building a month is erected. I am sorry to see that some of Glendale's streets and one of them Central avenue, are assuming the same saw-tooth appearance, with some new houses within 15 feet of the walk, others 20, and so on.

There is a doctor in Los Angeles who writes extensively for a daily paper and who decries the eating of meat of any kind, characterizing salt, vinegar, pepper and refined cane sugar as very detrimental to the health, and says that taking such into system greatly shortens life. Wonder why, then, the Mexicans, who use so much hot stuff and eat meat whenever they can get it, are such a long-lived people. We have one in our own city who is still vigorous at 117 and his brother died last week at over 100.

Glendale bumps into Burbank and Los Angeles on the west, into the latter city on the south and southeast, into Eagle Rock on the east, and the Verdugo mountains on the north. The only possible expansion of territory is to the northeast and the hills will have to be climbed and canyons followed up in this direction. But there are vacant lots and acreage enough in the present limits to accommodate 100,000 people, so let's not worry about our circumscribed boundaries.

The ranks of the real estate dealers are filled seemingly from all other professions. Right here in Glendale there are among the "real estate" former doctors, lawyers, preachers, mail carriers, telegraph operators, gardeners, truck drivers, housewives, ranchers, grocers, and so on and so on.

**OPEN HOUSE AT  
ST. MARK'S GUILD**

St. Mark's guild met Thursday at the guild hall and final arrangements were made for the open house to be held Wednesday, February 22, at the parish. Everyone is invited to attend this open house meeting, at which time a delightful program will be given and light refreshments served. It was also voted that they would serve a business men and women's lunch at the church on Thursdays at 12 o'clock, the charges to be 35 cents per plate.

Mrs. Helen Campbell has the program in charge for the evening of February 22 and Mrs. Holbrook, Mrs. Carrere, Mrs. Frank England, Mrs. Gertrude Bassett and Mrs. S. F. Card are in charge of the refreshments.

BUY A DIRECTORY CARD

**CITY COUNCIL****GIVES CONTRACTS****Pipe, Electric Motors and  
Pump Bids Are  
Passed Upon**

The fore part of the council meeting Thursday evening was given to the routine of opening bids for cast iron pipe, electric motor and pumps, and for street improvement. These bids were referred to the proper departments for checking and later Chief Diederich of plant and production department stated that the American Cast Iron Pipe company had made the lowest bid for pipe and the council voted to accept it. Bids for motor and pump went over for another week. The one bid from the Elliott & Fischer Co. for bookkeeping machine was referred to committee of the whole.

There were no bids received for the improvement of Brand at the junction of San Fernando, although it has been twice advertised. Councilman Stephenson reported because of the over shadowing trees it was a very dangerous place at night for motorists unacquainted with conditions and on his recommendation the council instructed the engineering department to keep red lanterns burning there at night until a street light is installed. The one bid for the improvement of Elk avenue from Pacific to San Fernando was referred to the city engineer.

**Changes in Service**

The following changes were indicated today by the records of the public service department.

E. F. Franklin from 811 East Colorado to 608 East Colorado; L. McBrine from 728 North Brand to 1310 North Maryland; J. F. Burgess from 1252 South Orange to 1257 South Brand; A. Chambers from 111-A South Brand to 432 Oak; Mr. Monroe, from 629 West California—near to 247 North Central; Mrs. Sprenger, from 1012 South Brand to 724 South San Fernando road; J. G. Burdick from 1107 East Wilson to 419 West Vine; R. H. Kohler, from 417 East Windsor to 512 Granada; E. Quinn, from 314 West Colorado; B. R. Peoples, from 1221 East Colorado to 543 West Myrtle; C. P. Ray to 1512-A South Brand; W. D. Elliott to 719 East Wilson; C. S. Dunning to 114 North Belmont; E. A. Kraft to 1011 North Brand; M. S. Lounsbury to 545 North Kenwood; A. Nelson to 120 1-2 North Olive; Ray Follock to 247 North Central avenue; J. Rosenberg to 314 East Palmer; J. Camerer to 319 West Garfield; Clifton Priddy to 405 West Doran.

**DEATHS  
AND  
FUNERALS**

**LUCY EVANGELINE GROCE**  
Mrs. Lucy Evangeline Groce passed away at the home of her daughter, Mrs. W. M. Mulligan, 321 East Chestnut street, February 16, at the age of 79 years. She had been a resident of Glendale for about five years in which time she had made many friends who will miss her friendliness and good cheer. She leaves to mourn her death besides her daughter, a granddaughter, Miss Geheviere Mulligan. Mrs. Groce was a devoted member of the Pacific Avenue Methodist church. Funeral services will be held in the parlors of the Jewel City Undertaking company at 2:30 Saturday afternoon. Interment will be at Forest Lawn cemetery with Rev. Harley G. Preston officiating.

A great deal of money makes fools of most people, but a very little money can have the same effect and you can be a fool without a cent in your pocket if you have talent that way.

The man who goes to church about once a year, always looks around, that one time, to be sure nobody there fails to see him.

**SAGE TEA TURNS  
GRAY HAIR DARK****It's Grandmother's Recipe to  
Bring Back Color and  
Lustre to Hair**

That beautiful, even shade of dark, glossy hair can only be had by brewing a mixture of Sage Tea and Sulphur. Your hair is your face. It makes or mars the face. When it fades, turns gray or streaked, just an application or two of Sage and Sulphur enhances its appearance a hundredfold.

Don't bother to prepare the mixture; you can get this famous old recipe improved by the addition of other ingredients at a small cost, all ready for use. It is called Wyeth's Sage and Sulphur Compound. This can always be depended upon to bring back the natural color and lustre of your hair. Everybody uses "Wyeth's" Sage and Sulphur Compound now because it darkens so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through the hair, taking one small strand at a time; by morning the gray hair has disappeared, and after another application it becomes beautifully dark and appears glossy and lustrous.

**Pre - Opening Sale  
SEVENTH UNIT at  
FAIRVIEW**  
Large Lots as Low as  
**\$385**  
Up to \$855—None Higher

A cash down payment as low as \$25 and monthly payments from \$10 to \$15 per month will secure your lot in this beautiful tract.

We have already placed on the market and sold six units or nearly 400 lots, one after another, just as fast as we could get them ready and this unit is the choicest property we have yet offered.

Fairview is located on a beautiful slope in the famous Northwest section of Glendale, one block from the P. E. car line and about 1/2 mile from the magnificent estate of L. C. Brand.

For desirability, Fairview lots must not be confused with any other subdivision. They are not low, or damp—they have good drainage, rich sandy loam soil, close to the new Grandview School, stores, churches, etc., and yet priced so low they will astonish you for this class of property.

No district or values like this in all Glendale. Come out and see for yourself.

Don't waste your money paying rent; buy a lot, put up a temporary home, 50 feet back from the street, and live in it at once.

A great development is taking place at Fairview. Over sixty homes have been built by our purchasers and lots in the first unit are already selling for \$200 more than they cost a few months ago.

Neighboring lots are being sold at from \$825 to \$1450, but we do not believe in asking the highest price for this beautiful property; we want our purchasers to make money and it is a source of great satisfaction to us that resales in our earlier units are showing handsome profits in so short a time.

There are only 56 lots in this seventh unit and people who know the exceptional values we offer are waiting for this announcement. Don't delay. Come out today or come out Sunday, if you can't before.

Drive out West Broadway and San Fernando road to Vine Avenue; then one block up to tract headquarters at Vine Avenue and Fourth Street. Our cars will leave 203 West Broadway at 10 o'clock Sunday morning, and 2 o'clock p. m.

**A Garbage Can on the Back Porch****A Player Piano in the Living Room**

Everything else needed between the two in the cute little bungalow.

Living room 14x20, with honest-to-goodness Fireplace with andirons, poker and tongs and hammered-brass woodbox, big, easy, Gustave Stickley Morris Chair, two solid oak rockers, bridge table and four chairs, rugs and the Auto-piano Player with more than fifty rolls, bench and piano lamp.

Two bedrooms with bath and hall and closets between; outside windows and electric lights in closets; shelves and drawers for linen; coat closet.

Kitchen with breakfast nook and everything built in. Elegant inlaid linoleum in kitchen, nook and screen porch. Ever-ready Heater; two laundry trays, broom closet.

All completely furnished, including dishes, silver, linen, everything all ready to move into and go to living.

House faces west with beautiful view of the mountains and is within two blocks of the mountains north of the city.

Lot is 50x150 with 7 small fruit trees, front lawn in and flowers and shrubs started. Garage with electric light.

Everything brand new—finished since Jan. 1st, and we have really no more than moved in and gotten settled.

1150 N. LOUISE AVE.

Geo. B. Karr, Owner.

The Price? Oh, Yes! \$7500 for it all. \$3000 to \$5000 cash.

Assume mortgage of \$2500 and a Trust Deed for any difference.

There are three beautiful lots just across the street—50x150 each, making a fine large corner, 150 ft. on both Louise and Stocker, that can be bought for \$2000 each for the inside ones and \$2500 for the corner—all cash prices. Just in case you might have friends or family who would like to buy and build near you, if you bought 1150 N. Louise.

## FARMERS SUPPORT OF BLOC PLANNED

Gather in Chicago to Effect Permanent Organization

CHICAGO, Feb. 17.—A national farmers' organization, built around the "farm bloc" in congress, was in process of organization here today.

Belief of farmers that the only relief from present conditions is through politics caused the call of a meeting of representative agrarian leaders of the nation. The conference was called by Benjamin C. Marsh, managing director of the Farmers' National council, who arrived here today.

Leaders of the new movement, who disclosed its nature to the United Press, said no attempt to form a new political party will be made. Farmers, however, will be formed into a unit to solidify their strength for or against congressional candidates in the next election, it was said.

Only the conservative farmer element will be included in the organization, authorities said. Members of the National Non-Partisan league, American Farm bureau and the United States Grain Growers will be active in the conference tomorrow.

The conference is preliminary to the meeting of farm and labor forces here Monday at which time leaders will attempt to bring about a political coalition in order to solve their individual and mutual problems.

There will be no new or radical plans come out of the farmers' conference, it was said. The new organization will be formed along lines already attempted by conservative farm leaders.

Leaders today frankly admitted they saw no immediate chance of relief from unfavorable conditions. They said they based their hopes on ability of the organization to sweep friends of the farmer into congress in the next election.

### \$500,000 FIRE STILL RAGING

MADISON, Wis., Feb. 17.—Fire, still raging this afternoon, caused over \$500,000 damage to the Corn-houser store here. Adjacent stores were slightly damaged.

The fire started late last night.

### JUBILEE SINGS SUNDAY

Western Jubilee Singers are to sing Sunday morning at the regular service in the First Methodist church. Dr. Crist says they are the real thing and it is certain to be a treat.

One thing that makes the tired business man tired is being made the victim of a new "drive" about every week.

## MOTHERS ATTEND PACIFIC P. T. A.

Meeting at School Marked by Address From Mrs. Kittridge

The Pacific Avenue school P. T. A. held their regular February meeting Thursday afternoon in Mrs. Stone's room at the school, with a splendid crowd of mothers in attendance. Mrs. Mae Rosenberg, president, presided. Following the reading of the minutes of the last meeting, a report of the treasurer was read. A program had been arranged whereby the most was made of the patriotic month. The little kindergarten children, led by Miss Corey, led in a flag salute, after which they sang several patriotic songs, holding small American flags over their shoulders. Mrs. Rosenberg made announcements of the Humane Society week, to be observed during April. Mrs. Kittridge, the juvenile court chairman, told of a visit to the El Retiro home, where comforters were delivered, having been made by juvenile court workers of Glendale.

The mother count showed a representation of 23 mothers for the kindergarten. "The Star-Spangled Banner" was sung by the mothers, led by Mrs. Harry M. MacMullen. In the observance of Lincoln's birthday, Rev. Harley G. Preston spoke most interestingly of the life of Lincoln, referring to him as the savior of our country, and in touching upon the comparison between him and our first president, he spoke of Washington as the "father of our country."

Mrs. J. C. Danford gave an address on "The Founding of Congress of Mothers and Parent-Teacher associations" on February 17, 1897. She stated that her topic would be "The Fundamentals of Our Country." She spoke of the purpose of the founding of Parent-Teacher associations as being for civic and social reasons.

Mrs. J. C. Danford then gave two vocal numbers in her delightful manner, accompanied by Mrs. Wright at the piano. Mrs. MacMullen sang "Dawn," written by Mrs. Pearl Curran of Glendale, and "Love is on the High Road," by Rogers. This closed the program and the members adjourned to the court, where a large white birthday cake, decorated most patriotically, and lighted with red candles, surmounted the table. Tea and cake were then served.

### SENATOR TRAMMELL

WASHINGTON, Feb. 17.—Senator Park Trammell will seek re-nomination by Florida democrats this year, and has no intention of stepping aside to let William J. Bryan be the nominee, he said today.

## BABY HEIRESS OF COLUMBUS P. T. A. M'CORMICK'S IS CAUSE OF PANIC

Engages Herself to Swiss Groom and Sirs Up Family

CHICAGO, Feb. 17.—Council of the clan of McCormick, ranked with the world's wealthiest families, was called here today to discuss the reported engagement of the baby heiress, Mathilda, to a Swiss groom, more than twice her age.

Harold F. McCormick was speeding to Chicago on the fastest train from New York, accompanied by his other daughter, Muriel. Mathilda arrived from New York last night. She was reported to have already obtained the consent of her father, president of the International Harvester company, and now sought the approval of her mother, daughter of John D. Rockefeller, world's richest man.

Mathilda lived in Zurich with her mother eight years and there met Max Oser, riding master, 48 years of age, with whom she is reported in love. She returned to this country last fall. She is now 17.

Her mother and father were recently divorced and although she has not yet officially decided whether she will cast her lot with stayed at her father's house here last night.

When she returned from Europe she did not travel with her mother, but came on the ship with her father.

As soon as other members of the family arrive, according to close friends of the McCormicks, a conference will be held and an official statement on the rumors will be made.

Mrs. McCormick at her Lake Forest home said she could not comment on the affair.

Miss Mathilda was still in bed at noon, according to servants at the Gold Coast palace, where she was staying, and could not be disturbed.

### TRAFFIC SINNERS ENRICH THE CITY

The following fines for violations of the traffic ordinances were imposed by Judge Low at the city hall:

J. R. Frisbie, Tujunga, disregarded traffic officer, fined \$5; Geo. C. Stevens, 604 North Louise, speeding, fined \$15; J. Lyons, 2212 Valjejo street, Los Angeles, plain glass in headlight, fined \$5; George A. Wilson, San Fernando, plain glass in headlight, fined \$5; H. L. Hardy, 18th and Cedar streets, Burbank, plain glass, fined \$5; John Sullivan, Los Feliz road, speeding, fined \$10; A. L. Smith, 315 North Kenwood road, turned between intersections, license suspended ten days; E. J. Kirk, 601 Laurel street, Watts; cut out open, fined \$5; Glenn Roberts, 121 West Acacia, speeding, license suspended until March 4, 1932; William Paband, 811 East Palmer avenue, speeding, fined \$10; George S. Stripe, 1451 Howard street, Van Nuys, plain glass, fined \$5; H. F. Cox, Ojai, plain glass, fined \$5; C. M. King, Lankershim, plain glass, fined \$5; N. F. George, plain glass, fined \$5; R. G. Fridley, San Fernando road, one headlight out, fined \$5; W. J. Reed, 611 North Brand, plain glass, fined \$5; P. O. Hickman, La Crescenta, speeding, fined \$15; J. Tyrrell, 436 Palm drive, speeding, fined \$15; Joe Reilly, La Crescenta, speeding, fined \$15; O. F. Shaefer, 102A East Broadway, speeding, fined \$15; Rommel Construction Co., no lights on out in street, fined \$250; Leon Ellison, parked by fire plug, fined \$5; Marian E. Coppes, Los Angeles, fined \$5; C. R. Bandle, Los Angeles, parked near fire hydrant, fined \$5; B. L. Yarch, Los Angeles, turned between intersections, fined \$5; City Towel Supply Co., Los Angeles, parked near fire plug, fined \$5; Albert D. Roberts, Los Angeles, reckless driving, fined \$250; D. M. Wood, San Gabriel, drunk, fined \$25; B. Pinkney, 1308 East Broadway, parked near fire hydrant, fined \$5; Lawrence W. Boyd, Los Angeles, intoxicated, fined \$25.

### REASON TIRES BLOW GIVEN BY TIRE MAN

During the present times automobile tires are called upon to stand the brunt of the negligence of the contractors and pavers. It is hardly possible nowadays to take a pleasant drive, even on our wonderful boulevards, because of the numerous half-filled ditches, or over-filled holes, that make driving a tedious undertaking.

Sometimes they can be avoided, but you can't miss them all, and to the driver who thinks anything of his tires, it is highly exasperating to drive along a supposedly good street when suddenly down he goes into a ditch, racking the whole car and occupants.

The best of tires will go out after a few such jolts—sometimes one is enough to do it. As the car rides down into the hole the tire is, of course, pushed in against the edge. The faster you ride and the deeper the hole, the further the tire will be pushed. Naturally, the point on the inside of the tire furthest away from the place of attack will have to stretch most. When the limit is reached, the fabric will break and, as the car rolls on so, the weight of it is over the broken spot, the crack opens up and the tube expands into it, and is promptly pinched as the crack closes. Most always a blowout follows.

On account of so much building going on now, there are hundreds of ditches opened in the middle of our best streets for sewers, etc., and since the proper parties cannot seem to fill these holes and pave over the top sooner than they do, we must watch for them, claims the Automobile Tire company's local manager, and drive slowly over them, giving some

## CELEBRATES BIRTH

Services Open With Salute to Colors, Led by Mrs. Parker

The Columbus P. T. A. celebrated the 25th birthday anniversary of the Congress of Mothers at the regular meeting on Thursday in the kindergarten room. The meeting was opened in the regular way by a salute to the flag and a patriotic sing was held in which all present helped. This was led by Mrs. C. A. Parker. The regular business was then transacted and the minutes of the previous meeting were read and approved, also the minutes of father's night and the treasurer's report. The idea of a stereopticon view machine was then brought up and after some discussion it was moved and seconded that the P. T. A. give \$25 from their treasury, to start a fund. They finally decided that the machine was needed right away and would put the matter in the hands of the room mothers and through them will start a drive for funds.

Mrs. Anna Johnson, chairman of the room mothers, will call a meeting a little later on.

After the business the speaker of the day was introduced, Miss Anna Irene Jenkins, past state chairman of the kindergarten department of the California Congress. Miss Jenkins gave a most interesting talk which ended with a toast to the P. T. A. at which time the birthday cake canutes were lighted. Upon adjourning, they were served tea and cake.

Miss Jenkins took them back to the time of Froebel, the kindergarten organizer, where he felt the lack of organized play, touching upon the banishment from Germany and the introduction of kindergartens in America, not as a philanthropic. From the mothers' interest in the work sprang an invitation to meet with the teachers and talk conditions over. The mothers at these meetings proved so helpful that they organized and called it a "Child's Study Circle."

From here interest was carried to the public schools and soon realization came that the fathers were also parents and the name was then changed to P. T. A., or Parent-Teachers association. Miss Jenkins went on to say that in the future she believed that the hyphenated name, Parent-Teachers, would be done away with, and she feels that a teacher in every sense of the word was also a parent, as she had the same problems to meet and they needed to meet shoulder to shoulder as men and women with a common problem and this problem being the home, the child, the state, the nation, and the world.

Miss Jenkins then addressed the children, suggested that as long as all other branches of public interest were represented at congress, that the children should have their place, so they called a convention, who called on Roosevelt, who was then governor of the state of New York, and from these this committee, with his approval, went to the President of the United States and he issued a call for the representatives of these P. T. A. organizations all over the United States to meet together, and the response was so great that it took the largest building in Washington to hold them and from this the national organization was founded on February 17, 1897. This organization is such a wonderful thing and some of the biggest problems are solved by the local groups. At the close of this splendid address a song, "Child Welfare" was sung to the tune of "Rally 'Round the Flag" and Miss Jenkins then added a prayer for vision and wisdom.

### DISPOSITION OF THE GERMAN CABLES

WASHINGTON, Feb. 17.—Acting secretary of State Fletcher today called a meeting of the international communication conference for next week to settle the disposition of the three ex-German Atlantic cables.

### FIVE BANDITS GET \$5000

NEW YORK, Feb. 17.—Five bandits attacked two messengers of the Pacific bank beneath the Queensborough bridge here today and escaped with a payroll of more than \$5000.

### MILITIAMEN TO PLAY

The National Guard team of company C will play the Huntington Park team tonight in the boys' gym of Glendale high at 8 p. m.

consideration to all parts of the car and persons in it.

## STOP RHEUMATISM WITH RED PEPPER

When you are suffering with rheumatism so you can hardly get around just try Red Pepper Rub and you will have the quickest relief known.

Nothing has such concentrated, penetrating heat as red peppers. Instant relief. Just as soon as you apply Red Pepper Rub you feel the tingling heat. In three minutes it warms the sore spot through and through. Frees the blood circulation, breaks up the congestion and the old rheumatism torture is gone.

Rowles Red Pepper Rub, made from red peppers, costs little at any drug store. Get a jar at once. Use it for lumbago, neuritis, backache, stiff neck, sore muscles, colds in chest. Almost instant relief awaits you. Be sure to get the genuine, with the name Rowles on each package.

## DEMOCRATS PLAN FOR REVENGE

Would Kill Four Power Pacific Treaty to Even Matters

By LAWRENCE MARTIN

WASHINGTON, Feb. 17.—Democratic senators have set in motion a plan to get revenge for the killing of the league of nations covenant. Their plan consists of these steps:

1—Adoption of the Hitchcock resolution requesting more information from President Harding on the four power Pacific treaty. This step has already been taken.

2—Forcing of an admission from administration leaders that the four power treaty involves the United States in exactly the same sort of international obligation as article X of the league covenant.

By the first step the democrats have confronted Harding with the same situation as the republicans forced on Wilson in the Versailles treaty fight.

Harding, like Wilson, must answer a virtual demand for information which is practically impossible for him to give. Wilson said he could not give the records of the Versailles conference because he did not have them and had no right to make them public if he had. Harding has no records of the conversations out of which the four power Pacific pact grew and if he had he could not make them public without the consent of Great Britain, France and Japan.

Harding will answer the Hitchcock resolution as soon as he can confer with Secretary Hughes, it was learned today, following a visit of Senator Lodge at the White House. Hughes will not be back from Bermuda for two weeks.

The second step in their revenge program democrats expected to accomplish by indirection. With the help of some republicans they expect to prove that as it stands the treaty would impose a moral obligation on the United States to help maintain by force, if necessary, the rights of Britain and Japan in the Pacific.

They are confident, at least, of creating so much doubt and uncertainty about this that the senate will adopt a reservation against the use of force without congressional sanction—the very thing that the republicans insisted upon as to article X.

### SECOND READING OF IRISH BILL

LONDON, Feb. 17.—The second reading of the bill establishing the Irish Free State was approved in the house of commons today.

The bill was referred to a committee of the whole. After its third reading the bill will be referred to the house of lords.

## AMERICAN SUCTION SWEEPER

Tomorrow (Saturday) night we can demonstrate for you up to 9 P. M.

# Willys KNIGHT

The Perfectly Balanced "Four" with Greater Flexibility, Ease of Operation than Most SIX-Cylinder Cars

## Tremendous Mileage That is Free From Care

Wm. S. Lord, 1718 Sierra Bonita Ave., Los Angeles, Calif., writes us as follows:

The Willys-Knight Sedan purchased by me Jan. 5th last is more than my fondest hopes led me to anticipate. Three thousand miles of pure joy is the record to date. More power every day in the motor and the hills fall away beneath the car as quietly and smoothly as they did when I drove an eight-cylinder car. After six years behind the wheel of a Cadillac, I never expected an equal pleasure in driving a four, but I am experiencing it with the Willys-Knight.

Just finished a 323-mile trip to Santa Barbara and beyond and return, on exactly 16 gallons of gas, better than 20 miles to the gallon.

It looks to me as if you and the salesmen working with you had an "easy job."

Motoring that frees your mind from thoughts of mechanism! Unlimited satisfaction! Assurance of covering thousands of miles without a care for adjustments!

The Willys-Knight Sleeve-Valve Motor has no valves to grind—no cams, springs or tappets to get out of order. It runs smoothly, powerfully, uninterruptedly.

What other car can give you care-free motoring at so low a cost?

Sedan: f. o. b. Toledo

## LODGES - CLUBS - CHURCHES

### SHOWER TO HONOR BRIDE

A very charming, miscellaneous shower was given Saturday evening in honor of the bride-elect, Miss Ernestine Niles, at the home of Mr. and Mrs. Wallace Robinson, 212 West Colorado street.

The gathering was a complete surprise to Miss Niles. The house was decorated with a profusion of hearts and Miss Niles, with a coronation ceremony, was declared to be queen. The guests then presented the queen with their beautiful gifts.

Mr. and Mrs. Robinson entertained in their usual hospitable manner and each one present seemed to do his bit to add to the jollity of the occasion.

Music and dancing were enjoyed throughout the evening, and the readings by Prof. Head of Venice were especially interesting.

Miss Niles, who with her mother and sister, came to Glendale a year ago to reside, was declared to be very popular in her neighborhood, endearing herself to the hearts of all who know her.

### MRS. BARTON ENTERTAINS CHAPTER

Mrs. A. A. Barton, 920 Mountain Road, was hostess on Thursday afternoon to Chapter C. J. P. E. O., and was assisted by Mrs. Durham Porter and Mrs. Fannie Crampton. After a short business session the afternoon was spent in piecing quilts and giving stunts. The guests were divided into groups of three or more and each group had to give a stunt, which added much to the jollity of the occasion. The meeting was more or less a patriotic one and guessing games on people of note from the revolutionary time down to the present. At the close of the afternoon delicious refreshments were served by the hostess.

The next meeting will be at the home of Mrs. Roy Kent, 522 North Central avenue, on March 2. The election of officers for the coming year will take place at this time.

### ROYAL NEIGHBORS RECEIVE APPLICATIONS

Glendale camp No. 8938, Royal Neighbors of America, met at the Knights of Pythias hall Thursday evening and enrolled eleven new members, also receiving five or six applications for membership. Following the business session, refreshments were served during a pleasant social hour, to the fifty members present. Mrs. Elizabeth Lindemann is the orator of the camp and Mrs. Lillian Howes its recorder.

### MRS. ALDRIDGE ENTERTAINS

Ten ladies of the Margaret Locke Coats group of the Women's Home Missionary society of the

First M. E. church enjoyed the hospitality of Mrs. Millard Aldridge, 356 West Ivy, Thursday afternoon from 1 to 4:30.

A pretty comfort was tied for a friend of one of the members, and following a business session, refreshments were served by the hostess.

### WOMEN'S AUXILIARY TO MEET MONDAY

The women's auxiliary of the American Legion, Post No. 127, will meet in Legion hall on East Broadway Monday evening, February 20. All wives, mothers, sisters and daughter of American Legion members will be welcome.

## VARIETY BILL AT T. D. & L.

The regular week-end vaudeville will be presented at the T. D. & L. theatre today and tomorrow, in conjunction with the First National feature picture "Habit," by Louis B. Mayer.

This variety program of vaudeville offers me exceptional talent, principal among it being the Kelson Musical Review of music, songs and dances, staged with special scenic effects and costumes. Comedy, novelties and laughmakers make up the program of real entertainment value.

The feature, "Habit," is a cyclonic drama of life—most realistic, with romance and love its underlying note, lavishly produced. For Sunday and Monday, Betty Compton will be featured in "The Love and the Woman," by Clyde Fitch.

### SEEK CHANGE IN HOUSE LINE LAW

Two residents have appealed to the city council for a permit to place a dwelling nearer the street line than the 25-foot set-back line established by a recent ordinance. One was A. G. Smith of East Elk, near Brand. The other was Mr. May, the contractor, who is improving shallow lots on Sycamore Canyon road near Chestnut. The city attorney stated the request could be granted only by amending the ordinance and that could be done only on a petition from the residents of a block to have the set-back line changed from that provided in the ordinance.

### COUNCIL CALLS WATER BOND VOTE

At the council meeting Thursday evening, an ordinance was adopted calling for an election March 7 in the Sierra avenue district, or district No. 5, to vote on a bond issue to acquire water rights and lay water mains. "If there were no fools, wise men would be without honor."

### HIGH GLEE CLUBS ENTERTAINMENT

A big musical event which will be of special interest because it is being given by local young people, will take place next week, Friday evening, February 24.

Under the direction of their chorus leader, Z. Earl Meeker, the girls' and boys' glee clubs of Glendale high school will give a program in which they will be assisted by Alfred Kastner, harp soloist of the Los Angeles Philharmonic Orchestra.

Mr. Kastner, who for a time was a professor in the Budapest Royal Academy, is known internationally especially in England as he was harp soloist of the Queen's Hall concerts, principal harpist of the Conservatory Garden opera, and professor of the royal academy of music in London.

The two glee clubs have an enrollment of 51, and this will be their first public performance since their training began under Mr. Meeker last September.

## ART CITY MAKING TOLD AT FORUM

(Continued from page 1)

from improving the paving to extending neighborhood to Eagle Rock and other surrounding suburbs.

The keynote of the meeting was struck by Professor R. F. Bird of Occidental college, who declared that the need of the hour was knowledge of the art of neighborhood to make people fit for freedom. He declared that a study of 1,700,000 men of the army showed 30 per cent illiteracy, and 47 per cent morons, or those equipped with the mentality of children of 13. Only 12 per cent were mentally equipped to excel. This was the result of child labor, malnutrition, and a lot of other things that it is the work of the business men of the country to eliminate in order that all be fit for freedom. He urged that they guard the 12 per cent and fit them in the art of neighborhood, to do their duty in the world.

Mr. Saunders in the public forum declared that Glendale people were too busy buying a lot and building a home on it to stop and speak kindly to a stranger in the streets. He declared people had left the city because of sheer homesickness.

"Glendale is the most wonderful place in the world," he declared, "and is filled with people from every corner of the world. I don't care if you hold another meeting next week, there would be an entirely new crowd of the same kind of people—people from everywhere."

Mattison B. Jones scored the P. E. for its resistance to the pleading of the Brand Boulevard Improvement association that it lower its tracks, pave the right-of-way and remove the unsightliness in the south end of the city.

Charles Toll declared that the railroad depot was giving a false impression of the city. He declared the environment of Glendale. He suggested that the subject of improvement be brought before the Southern Pacific railroad.

Dr. Henry Harrower, as master of ceremonies, had suggested that some bright school boy be employed to take pictures of the condition of some parts of the city.

Mr. Cutting, a newcomer last November, moved that a clean-up campaign be instituted. The motion was adopted, notwithstanding Mr. Rhoades' objection that the civic committee of the chamber of commerce had the matter in hand and was working in conjunction with the city council.

Dr. Harrower announced, along the line of co-operation, that the young men and women who had given part of the program delightfully, were members of the Junior Glendale Music club. He also told the diners that Jesse E. Smith was anxious to have it known that he now handles Lincoln automobiles in addition to Fords.

Only a few minutes were required at the meeting to form a "Ten o'clock Club," an organization which will attempt to get all prominent citizens of the city to join the chamber of commerce in case they are not already members. The five men who volunteered to join the club were Joseph Wagner, Parker, Herbert, Brown and Sibirrell.

Those five men will meet at 10 o'clock Tuesday morning at the chamber headquarters to form plans for their conquest. Secretary Rhoades explained that while Pasadena is very much larger than Glendale, an effort will be made to make the local chamber of commerce as large a body as that of Pasadena.

The applause which greeted the song by Mr. and Mrs. Harry Girard, the solo by Glenn Hurd and the duet by Freda and Irvin Potts, was spontaneous. Veda Knapp was the capable pianist. Of the 900 members of the chamber of commerce who had been requested by letter to suggest plans for 1922, only 60 have responded, according to Secretary Rhoades. He urged the remainder of the 900 to send in their suggestions.

The lowering of the Pacific Electric tracks in the city, promotion of industrial plants, greater co-operation between the city and nearby cities and various public improvements, were mentioned in the letters from the 60 who responded, Secretary Rhoades said. At the conclusion of the meeting the audience sang "America," led by Harry Girard.

An informal "get-acquainted" meeting, during which time Glendale folks, both friends and stran-

## COUNTY PROBLEMS DISCUSSED BEFORE THURSDAY CLUB

### Cost of Government of Los Angeles Analyzed by Supervisor

The regular meeting of the Thursday Afternoon Club was held yesterday afternoon at the home of Mrs. A. L. Bancroft, corner of Laurel street and Brand boulevard. The meeting was opened by the president, Mrs. E. V. Bacon, and after several reports were made, was then turned over to the program chairman, Mrs. Kemper Campbell, who introduced the speaker of the afternoon, Supervisor Henry W. Wright, of Los Angeles. Mr. Wright spoke to the club concerning problems of government and taxation, and gave some very interesting facts and figures regarding same.

In speaking on "The Cost of Government," Supervisor Wright said in part: "Any analysis of the cost of government must also include consideration of the matters performed by such government. The mere statement that a State or County expends a certain amount per capita for government carries no information worth while, unless coupled with an outline of the activities of such government."

"The tendency of the present day is to demand on the part of the public that the government shall more and more bear the expense of those problems which experience has proven can only be satisfactorily handled by private individual or public corporation. Especially is this true of government in California."

"In the development of this great State, our State government has been more and more required to take over the cost of the matter of public improvements which were formerly carried on by the individual or by private enterprise. The people of California are most concerned whether the money expended for these great improvements create an asset rather than a liability."

"It will cost forty-four million dollars to govern the State of California for the current year, and it will cost thirty-three million dollars to govern Los Angeles County for the same period. It will cost an additional ten or twelve million dollars to govern the City of Los Angeles for a similar term. In other words, it costs as much to govern Los Angeles City and County combined for one year, as it does to govern the State of California for one year."

"Let it be understood, however, that more than 50 per cent of these expenditures in both State and County goes to the support of education."

"Los Angeles County will receive from the State treasury this year several million dollars to be used for the support of schools, for fire control, conservation, tuberculosis subsidy, and other purposes, which, if not borne by the State, would necessarily be raised by an added tax levied upon the homes of the people of this County."

"In view of the fact that the State government is supported by a tax upon the public service corporations, great stress is being placed on the claim that these taxes paid by the corporations are transferred directly to the people. But so are the taxes of the editor and the farmer, and yet no one would argue that the corporation or the individuals should be exempt from their just and equal share of the taxes so long as property continues to be the basis of our system of taxation."

"Fortunately, however, the entire tax cannot be passed along to the public, and after all, we are paying each other's taxes. Evidently, the Constitution of this State means exactly what it says when it states that 'all property in this State shall be taxed in proportion to its value.'"

"The public have a right to insist and should insist that every dollar spent in taxes by either State or County must return its full value of service to the public."

After this most interesting talk, questions were asked by the members of the club, and Mr. Wright very ably answered them. The guests were then asked to go to the dining room, where delicious refreshments of sandwiches and hot chocolate were served by the joint hostesses, who were Mrs. Stewart Street, Mrs. William C. Mabry, Mrs. James W. Everington, Mrs. A. H. Mayne, Mrs. T. D. Medick, and Mrs. M. P. Vestal.

The youth who has "money sense" may end his days in a palace, but if he had that kind of sense he won't want one.

The head of the family has had to do a lot of foot work in the last year to keep his creditors at arm's length.

The applause which greeted the song by Mr. and Mrs. Harry Girard, the solo by Glenn Hurd and the duet by Freda and Irvin Potts, was spontaneous. Veda Knapp was the capable pianist.

Of the 900 members of the chamber of commerce who had been requested by letter to suggest plans for 1922, only 60 have responded, according to Secretary Rhoades. He urged the remainder of the 900 to send in their suggestions.

The lowering of the Pacific Electric tracks in the city, promotion of industrial plants, greater co-operation between the city and nearby cities and various public improvements, were mentioned in the letters from the 60 who responded, Secretary Rhoades said.

At the conclusion of the meeting the audience sang "America," led by Harry Girard.

An informal "get-acquainted" meeting, during which time Glendale folks, both friends and stran-

## BATHHOUSE JOHN TELLS ABOUT YE FLAPPER

CHICAGO, Feb. 17.—Alderman "Bathhouse" John Coughlin has definite ideas about flappers. He defined them today as follows:

"A flapper is a youthful female, beautiful externally, but internally, superficially intelligent, imitative to a high degree. Her natural habitat is the cabaret, the ballroom and the boulevard, the fast motor car. She broods about the troughs of learning, picking from it tidbits of smart phrases which she glibly repeats without fully sensing their meanings. She comes from all walks of life and has for her main requirement nerve, a face and figure which actually beautiful or susceptible to artistic effort."

## SO. PASADENA TO PLAY HIGH HERE

Glendale High's basketball team this afternoon will be matched with South Pasadena in a league game on the Glendale field. This will be the fifth league game, the team having won 2 and lost 2, and now holding third place in the league.

When you tell a tightwad to "thaw out," he gets warmed up.

## TUES. AFTERNOON CLUB TO REPEAT ITS SUCCESS

### Give Midsummer Night's Dream Again on Thursday

The repetition of the program consisting of scenes from "Midsummer Night's Dream," to be given by members of the Shakespeare section of the Tuesday Afternoon club, promises to be even finer than its first presentation before the club. It is to occur next week, Thursday evening, in the chamber of commerce auditorium, and as before, it will be directed by Mrs. Henry Ralston, dramatic interpreter of the section, who has had much professional experience in the drama, silent and spoken.

As before, there will be a ballet by pupils of the Pearl Keller school, and the program will be embellished by vocal numbers by a trio directed by Mrs. Calvin Whiting. All Shakespeare songs, Miss Litch will again serve as the accompanist and will play the overture to the opera, "Midsummer Night's Dream." About sixteen section members, headed by Mrs. A. H. Montgomery, the curator, will be in the cast.

OH! MY GOODNESS! When I received word that I was to have guests for dinner I didn't know what to do! Not a bite to eat in the house! And then I remembered—NUSSBAUM'S GROCERY AND MEAT MARKET, 244 North Brand boulevard, deliver free of charge! So I called Glendale 91 and ordered my fresh fruits and vegetables, for a cool, delicious steak, a wonderfully thick, juicy steak from the meat department, a can of Iowa Sweet Corn and a can of fruit for dessert! Of course, too, there were olives, jelly, crackers, and yes, even slices of old-fashioned cheese, and the usual "fixins." But imagine my surprise when in but a few minutes they were at the door! That is the reason I always trade at Nussbaum's—for there, quality and service are combined with fair prices and efficiency! It is a joy to have a grocer upon whom you can depend!

Red and all shades bordering on it continue to outnumber other colors, and white remains strong for evening.

THE SMARTNESS OF MILADY'S SPRING WARDROBE depends largely upon her taste in selecting a chic fur choker! You will find Miss Bedell of the BEDELL FUR SHOP, at 1135 North Louise street, of invaluable assistance in solving this little "what-to-wear" problem! Miss Bedell, as you know, is a designer and maker of good-looking scarfs and stoles from old muffs, and yes, even slices of old fur coats! It is this happy faculty of successfully using old materials that has won for Miss Bedell a place in every feminine heart! She carries in stock a pleasing line of attractive furs from which you may make your selection. Call Glendale 429-J for an appointment!

Charcoal or camphor, dissolved in a vase in which cut flowers are placed will keep them fresh a long time.

LOVELY DINING ROOM SUITES—depicting with delicate beauty all of the charm and grace of design that characterized the Queen Anne and the William and Mary periods—may be seen this week at the GLENDALE FURNITURE STORE, 606-608 East Broadway. Beautiful tables and chairs, attractively finished in mahogany, walnut, oak and Jacobean—with good looking blue or brown leather seats—compose the new shipment which they've received. And you are fully protected in trading with them. Glendale Furniture store, not in quality alone, but in price! Mr. Flagg guarantees his prices on high grade furniture!

Small hats are the vogue of the moment but the close fitting chapeau vanishes more or less in favor of the brim.

A BEAUTIFUL NEW SPANISH BUNGALOW, typical of our sunny California, is the charming home which JAMES W. PEARSON of 108 North Brand boulevard is offering! Don't miss seeing it—for truly it is a thing of beauty—with handsome quartered sawed hardwood floors throughout, tile bath and the sink—exquisite highly decorated walls—and every conceivable built-in feature! You can readily understand, too, that \$8500 is most reasonable for a bungalow such as this in the finest section of Glendale. Call Mr. Pearson today for an appointment!

Before putting a garment with snap fasteners through the wringer snap the fasteners together. This saves the little knob from being crushed and broken.

"PEP" is the secret of success—and in turn, one of the secrets of pep is White Rose Spring Water—the famous "Laughing Water"—bottled by the INDEPENDENT ICE CO. of 106 East California avenue. Call Glendale 217 and order a bottle today!

## New Bungalow \$1450

Pay \$250 Cash and Move in

Best home proposition ever offered in Glendale. To make it easy for you to own your own home, we have arranged for the erection of a limited number of class 3-room bungalows with garage, at the above price, including plumbing, etc.

Just think of it, a house and lot ready to move in for \$1450. In order to make this price the interiors are unfinished and can be done to suit the individual tastes of the purchasers. The initial payment of \$250 includes the initial payment on the lot. Balance at \$30 per month and interest.

One of these little homes is ready for inspection Sunday and we can take orders for a few more. Why pay rent when you can get a proposition like this? Come out and investigate. Bring a deposit with you.

## HAMLIN & HEPBURN

203 W. Broadway

Automobiles leave 203 W. Broadway Sunday at 10 A. M. and 2 P. M.

Tract office Vine Ave. at P. E. carline.

FOR RESULTS—USE PRESS WANT ADS

IN MORE WAYS THAN ONE does it pay to trade with BAINES SHOE REPAIR SHOP at 312 East Broadway—opposite the fire station! You know, they call for and deliver shoes to be repaired—although Mr. Baines' prices are conceded to be the cheapest in town! Why, for ladies' sewed soles and rubber heels the charge is only \$1.50—and for men's, \$1.90. But when the kiddies' shoes are ripped—just send them to Baines—and they'll repair them free of charge! Yes, just phone them in the morning and by afternoon your shoes will be returned to you—finished!

Few brims are straight—they must take an upward turn at some point or other.

FRESH, WHITE KID gloves and a neatly cleaned and pressed suit or gown are unmistakable marks of refinement, for in order to be well groomed, one's attire must show care and attention! Take your work to the BRAND CLEANERS of 217 South Brand boulevard—as they do expert cleaning and pressing—a high grade of work at reasonable prices!

FOR THE WEE LITTLE MAN AND MAID, what could be more practical or attractive than the adorable play suits that are being shown at SHERROD'S SPE-

cial order work (she designs and makes suits, coats and dresses to fit one's personality as well as one's figure) that it is impossible for her to continue to handle a ready-to-wear department also! Even the spring stock is included in this gigantic clearance—taffetas, georgettes and crepes are as radically reduced as the good-looking tricotines and polka twills! Don't, I beg of you, miss this opportunity to secure several wonderful dresses for the price of one!

Vogue of black and white has reached the furs and, as a result, ermine, broadtail, caracul and seal are coming back into their own.

BREATHES THERE A WOMAN who, when spring sends out its first perfumed call—doesn't feel the urgent need of sewing—fashioning dainty undergarments and charming house-dresses for herself as well as the kiddies? If such there be—just send to FISHER'S VARIETY STORE, 212 East Broadway, for there, of all places will one be fairly consumed with the desire to sew! Fisher's are showing a beautiful line of fine laces—tulle, valencienne, imitation crochets, and attractive borders with picot edges! The prices are extremely interesting, too—5c, 7½c, 10c and 15c the yard! There are just the lovely laces to add that clever, finishing touch to the plainest of garments!

Quilted crepe frock of brilliant coloring is one of the latest sport costumes. Very plain it is, straight of line, having a little white vestee as its only adornment.

A DIAMOND—no matter how beautiful the stone—must be appropriately set in order to manifest its infinite purity and beauty of design, ARTHUR H. DIBBERN, of 121 North Brand boulevard, specializes in the re-mounting of stones. He will re-set your diamond in platinum—using a mounting that seems peculiarly suited to the stone in manner of design as well as coloring—and return to you a ring of such wonderful beauty and size that it will be hardly recognizable! Mr. Dibern will originate a mounting to suit your taste if the wide choice of selection offered in his complete stock proves inadequate. Take your old ring or pin to Dibern's and ask Mr. Dibern for suggestions!

Each week sees new and interesting things added to the accessories displays, emphasizing the importance of minor items of dress.

Combs that are a la mode are the ones that match milady's hair. If it be jeweled then the jewels match her eyes.

# ANNOUNCING the OPENING of the Sanitary Grocery and Meat Market at 3411 Glendale Blvd. on Monday, February 20

A New Up-to-date Market, carrying a complete line of Staple and Fancy Groceries and Everything in Grade A-1 Meats. We earnestly solicit your Patronage.

Let Your Dollar Saved be the Seal of Our Reliability

### FAIR WINTER BATHERS BECOMING FAIRER AT MIAMI BEACH

Fair bathers at Miami are becoming fairer every day, according to visitors to the Florida winter resort. The reason is that many of them attend the daily sessions of the Miami Beach Athletic and Castelethian club. After they go through the regular setting up exercises, they run, jump, play ball and swim. According to the beach habitues, those who run to avoid drowsiness have been leaving pounds on the beach which those who needed a little weight have been picking up. Seems like a fair exchange.

## BURBANK NEWS

### CIVIC CENTER IS PLANNED FOR BURBANK

Use of Grammar School  
as General Location of  
Local Activities

BURBANK, Feb. 17.—A plan for a long step forward for Burbank is being given serious attention now by many of the leading citizens, and not only serious attention but approving attention, and while as yet the plan is only suggested, the prospects are that it is going to be a materialized idea within a reasonable length of time, for those who see clearly into the near future of this city see that something in the nature of the proposed plan must be. The idea, as suggested by the majority of those who have expressed themselves, is to take the grammar school as a sort of civic center, using it to house the city's official business, the chamber of commerce, city library and providing a municipal auditorium, and perhaps other bodies or interests as developments might see best to include.

It is stated that the city has the right to issue bonds for the purchasing of a building for such purpose and the school board has the right to sell its property. It is generally conceded that the present location of the grammar school on the boulevard, with its ever-present danger to children from the endless procession of automobiles, is very undesirable. Also, the grammar school was built to accommodate less than 500 children but under pressure is having to care for nearly 1000, a condition which must be remedied at once. The present city hall, it is declared, is not, or soon will not, be adequate to care for the city's rapidly increasing business and that something will then have to be done by the city to provide a building for itself. The library is next to none at all, both in quarters and in equipment, and many residents are rightfully calling for more and better space and also for a library which belongs to the city instead of one consisting of a few books sent out from the county organization. As for the chamber of commerce, it, too, has no business home worth speaking of, and for an organization which is growing like it is and which represents to a large degree the best interests of the city, for the sake of appearance to the outside world as well as for convenience in transacting its work, it is seriously in need of better offices.

The auditorium feature is one of the main considerations in this plan, for almost every week there is at least one public entertainment requiring a place of large seating capacity and such events are held in the auditorium now, anyway, as there is no other place available. It is said that the grammar school as it now stands would serve the purpose very satisfactorily of caring for the various interests, as outlined, and would require but little remodeling, and it is also in the plan to beautify the grounds and make a portion of them into a public playground and a portion into a public park.

It is estimated that the value of the grammar school and the site is in the neighborhood of \$200,000, and it is suggested that this money could be used by the school board in the purchase of less expensive sites and the erection of two or more buildings so located as to be of greater convenience to the children, and of very much greater safety.

### Burbank News

The concert given under the direction of the Chamber of Commerce, and directed by Mrs. Zefer Algot Sparrow, was a wonderful musical treat. Every lover of classical numbers should have been present to enjoy the event, for it is seldom ever in a city much larger than Burbank, that one has the opportunity to hear so excellent a program so excellently rendered. The second entertainment under the auspices of the Chamber will be given February 24th, and the proceeds will be divided equally between the Chamber and the Scout organization.

Mrs. Theodora Bonnett died February 11th at a local hospital after suffering long with a complication of diseases. She was 36 years of age and was born in Italy. With her husband and two children she resided in the country west of Burbank. Funeral services were conducted from the Holy Trinity church Tuesday morning under the direction of A. C. Fillbach. The deceased was a cousin of Mr. Pastroni, who resides on East San Fernando boulevard.

J. T. Millan, treasurer and tax collector of San Diego, was in the city Tuesday calling on his friend, R. W. Colburn. Mr. Millan is a candidate for the Republican nomination for state treasurer.

Mr. and Mrs. Frank Hart are the parents of a boy baby born a week ago at the Burbank hospital. Mr. and Mrs. Hart have moved from Santa Anita avenue to Fourth street on the eastern edge of Burbank.

Mr. Lempeke has recently sold his property on Grismer avenue consisting of an acre improved with a modern house, to Mr. Haag, of Los Angeles, who, with his family, will soon move to this city.

Mr. and Mrs. Harry G. Kiser, of New Castle, Pennsylvania, are expected to arrive in the city soon to visit with relatives. Mrs. Kiser is a sister of J. L. Cochran. The guests will be entertained at the home of Mr. and Mrs. D. S. Preston, of Santa Anita avenue, Mrs. Preston being a niece of Mrs. Kiser.

Mr. John Oldham, of the Moreland factory, and his wife have moved into their new home at Eighth and Elmwood avenues.

Luther Swanson, of Texas, is in Burbank the guest of his uncle, Chas. A. Ostrum, of West San Fernando boulevard.

Watt L. Moreland and Advertising Manager Faulkner, of the Moreland Truck company, are attending the automobile show in San Francisco.

The south-west corner of the boulevard and Palm avenue is fast being improved with what is going to be a service station. The excavating has been completed and the foundation is now going in. The site is owned by Mr. McNutt, of Glendale, and the building is being erected by Fife & Reid, who have a five year lease on the location. The structure will be of gypsum block, and the cost is estimated at \$2,000.

**IMMIGRATION STATION RUMOR**  
SAN FRANCISCO, Feb. 17.—Angel Island may be abandoned as the immigration station of San Francisco port, according to rumors. Alfred Hampton, former assistant commissioner-general of immigration at Washington will arrive here shortly to conduct a government investigation of the advisability of removing the station from Angel Island.

However the report is not taken particularly seriously by federal officials, for the simple reason that the same report has emanated from Washington with regularity each year for the past 25 years. The present substitute for the distant Angel Island site is a location at Port Mason.

When a woman has troubles she confides in a physician. When a man has troubles he confides in a lawyer.

If you don't know all about your job, you can only conceal your lack of knowledge by keeping away from it.

### NEW STATE BANK OF BURBANK IS WELCOMED

New Financial Institution  
Opening Marked by  
Floral Tokens

BURBANK, Cal., Feb. 17.—The new State Bank of Burbank opened to the public Tuesday under most auspicious conditions as far as weather and crowds were concerned. The institution is new and it has a new home and new furniture and all are most attractive and evidently the citizens of Burbank wanted to see all that was new, for throughout the day and evening they responded to the bank's invitation to inspect the place and make acquaintance with the officials and clerks. The desks and counters were loaded with beautiful flowers contributed by friends and well wishers. Among those who helped decorate and brighten the new bank were in their blossoms were: Neuner Corporation; Los Angeles Desk company; Wheat Cabinet company; Mr. Borden, of the Redondo Floral company; Commercial National Bank; Security Trust and Savings Bank, all of Los Angeles; Frank Irvine and Company, of Glendale; Irving National Bank of New York; Farmers and Merchants Bank of Burbank, and Mr. F. A. Goodrich.

### BURBANK CHAMBER OF COMMERCE GAINS MEMBERS

A Dozen Additional  
Names Are Enrolled  
In Organization

BURBANK, Feb. 17.—Secretary Colburn of the Chamber of Commerce continues to receive new names for the list of members of the organization. Among the latest are: R. M. Attwater, chiropractor; R. S. Dodge, decorator; Austin A. Chute, Moreland Truck company; H. M. Taylor, National Bakery; M. E. Gilbert, agent P. E.; Geo. R. Cole, city marshal; Valley Cafe; First National Bank; F. F. Scribner, Farmers & Merchants Bank; Irving S. Watson, insurance; Chas. M. Kline, poultryman; H. L. Sinclair, Sinclair Printing company; Arthur L. Holgate, real estate.

The Leaning Buddha is a Chinese rival of the tower of Pisa. This 12th century pagoda, near Nanking, is 100 feet high, of 13 stories and inclines 12 feet from the perpendicular.

In early times the diamond was credited with the power of guarding the wearer from poison, insanity and timidity.

## The Barton Bedtime Stories

WHAT THE MATTER WITH THE MICE IS

By JOHN BARTON

(Copyright, 1921, by Associated Newspapers)

"Now, isn't that queer?" said the Widow Squirrel as Dr. Muskrat paused to see how his story was going. "It was the muskrats who rode through the Big Flood in their little round grass houses in the middle of their thorn tree."

"What's so queer about that?" demanded the doctor anxiously. (You know it's ticklish work to tell stories about your own folks.) "The thorn tree kept them afloat so they wouldn't drown and its nice, springy branches kept anything from crushing them. If it hadn't been for that thorn—"

"That wasn't what I meant," interrupted the lady. "I've always thought something very much like that must have happened to the mice—whirling and bouncing so, you know—cause their brains seem so addled. Now yours," she hastened to add, "doesn't seem to have been affected at all."

"Ah, well," he replied, quite satisfied, "we were by way of being muskrats already. It's not added brains but their guilty consciences that ails the mice. You can't be calm if you're always disobeying some one. You're always roared off by fear you're going to be found out, and the mice—"

"Please don't waste any breath on the mice, sir," put in the red dog, wiping them out of existence, so to speak, with a vigorous tail wag. "It's your great-grandparents which interest us."

Dr. Muskrat was so flattered! "Well," he went on, "after the rain came the wind, and after the wind came a dead calm, and the little thorn went float-boat-float over the sea that was smooth as the ball of your eye—smoother, for there wasn't a breath of a breeze to wink across it."

"I think they slept a bit," cause

they were so tired out from holding on with that terrible tail grip. When they woke up my granddaddy put his head out. 'Arah, my

But After a While They Began to Be Hungry.

dear," he called to his mate, "Come on! Come out and enjoy the sun. See, the dragged herself forth and for a long while the sun seemed enough for them. They were so glad to be rested and warm."

"But after a while they began to be hungry. Of course there wasn't

## WESTERN ATHLETES TAKE TO GOLF

CHICAGO, Feb. 17.—College golf will soon be a major sport in the western conference in the opinion of Coach A. A. Stagg of the University of Chicago.

This spring is to mark the dawn of a new day for western collegiate golf, he believes. It will be the beginning of the time when golf will rank with track and other pastimes of the warmer months.

Throughout the conference there is being manifested a new interest in the game. Golf in the Big Ten will be among the matters to be discussed by coaches at their meeting here March 16-17.

A single apple left on their thorn, even its twigs were all thrashed off. And there wasn't a sign of anything else in all the world; not a spot of earth in all the sea nor a cloud in the sky. But just about the time they began to feel desperate Arah chanced to turn her head. "Borrah!" she gasped. "Do you see what I see? Look, look!"

NEXT STORY: IT'S NOT NICE TO BE STARED AT.

## Posture and Sleep

By H. ADDINGTON BRUCE

Author of "The Riddle of Personality," "Self-Development," Etc.

(Copyright, 1922, by The Associated Newspapers.)

If you want to sleep to best advantage, sleep lying on the abdomen. At least, so urges a Philadelphia physician, Dr. J. Madison Taylor, who has given much thought to the problems of sleep.

"The attitude in sleep which all animals assume," Dr. Taylor remarks, in a communication to the Medical Times, "is lying on the abdomen—ventral decubitus—never on the back, or 'dorsal decubitus.'"

He goes on: "Note also infants and young children. Elders may object that their faces may become buried in the pillow, they may suffocate." Not at all. Rest the face on the pillow's edge, and push in the part of the pillow which projects beyond the nose, which will then hang over and give ample air vent.

"Any one can—by using ingenuity—compass the change in 'decubitus,' and will forever thereafter prefer the ventral position. In very cold air the head may need a cover, especially the ears. This is easily supplied by a handkerchief or cap."

Acceptance by any large number of people. But it should at any rate serve as a wholesome reminder of the undesirability of sleeping on one's back rather than on one's right side or left side. Sleeping on the back has the special disadvantage, as many have found from personal experience, that it favors the occurrence of distressing dreams. This is explained by another physician, Dr. W. S. Walsh, as being "probably due to interference with the cerebral circulation, secondary to a compression of the abdominal aorta by the viscera."

Then, too, quite apart from the role it plays as a nightmare producer sleeping on the back influences unfavorably the nutrition and the func-

tions of various bodily organs. So that the "dorsal decubitus" as Dr. Taylor calls it, should on no account be adopted as the regular sleeping posture.

One should, instead, sleep, if not on the abdomen, at least on the right side or the left side. Which side to choose is, as a rule, a matter of small importance.

Popular opinion, to be sure, gives preference to the right side, on the theory that to sleep on the left side may interfere unduly with heart action. And undoubtedly many more people sleep on the right side than on the left side.

But this may be because, as suggested by the medical psychologist, Dr. Boris Sidis, more people are right-handed than left-handed. The right-handed, Dr. Sidis believes, instinctively tend to turn over on the right side when composing themselves for sleep, whereas the left-handed equally instinctively prefer to sleep on the left side.

"This is done," the explanation runs, "to limit the more active side, where there is the greater possibility of motor sensations. So that people lie on this or that side for a reason precisely analogous to that for which they close their eyes and pull down the blinds."

Whichever the side chosen, the posture should be one of complete relaxation.

There should be no uneasy shifting from side to side, no tense stiffening or drawing up of arms and legs. To lie as straight in bed as possible, relaxed in general, with the head on a pillow neither too high nor too low for comfort—these are postural requirements of importance for the gaining of soundly refreshing sleep.

## When the "Light Has Gone"

It is an age-old instinct that makes men care for the dust of their fellowmen—that made the Pharaohs build pyramids—that makes us all guard our own with the best that seems fitting to us and to them.

In by-gone days of pomp and ceremony, the occasion of the departure of a loved one was heralded with ostentatious demonstration.

Today—Sympathy, Understanding, Quietness and ready service takes its place as a more fitting symbol of respect. We lose nothing of dignity, and gain greatly in realness and simplicity.

Our Funeral Parlors are at your service. Full Motor Equipment and our own Personal Service at all times in the direction of every detail.

The question of finance is made adaptable to your convenience.

## The Once Over

### PALM BEACH

By H. I. PHILLIPS

Palm Beach is a southern winter resort entirely surrounded by newspaper photographers.

It is situated on the Florida gold coast and is bounded on the north, south, east and west by society people sitting around in various stages of undress wondering whether the papers back home have printed their pictures yet.

Its principal products are romance, tarpon, bankruptcy, society feuds, scandals, headaches, sunburn, jellyfish, new ballroom wiggles, indigestion, souvenir post cards and hot stuff for the northern society reporters.

Its climate is ideal for about 12 weeks, from January 1 to April 1. The other 40 weeks don't count.

It has much beautiful vegetation and many wondrous palm trees, and from the way the society leaders talk about them you'd think they furnished all the seeds and did the planting.

One of the famous spots at Palm Beach is the coconut grove. It is the most select coconut grove in the known world. Very hard to get into. Every coconut tree in the grove has a personal valet, two manicures, a Harvard tutor and a Terminal barber to keep it well groomed and educated.

Association with only the right people is taught the coconut tree from infancy and if one of them should look down and discover it was shadowing some ordinary person like a cutlery salesman from Perth Amboy, N. J., it would fold up and expire.

Believe it or not, every coconut is grown from plans drawn up by the Daughters of the American Revolution, and if not up to expectations it is picked and destroyed. Ruthlessly!

The beach at Palm Beach is very beautiful, and there is a

finesse about the waves not found at other resorts. The ocean is especially prepared, being colored and flavored each day in accordance with a majority vote.

No better grade of sand than that used on the beach for lounging purposes is known, and the whole upper layer has been built upon a foundation made by Ostermoor, the mattress magnate. It is said that no plumber's foot has ever soiled a grain of Palm Beach sand.

The beach is the real magnet. It is ideally designed for purposes of photography. Each day this beach is crowded with dowagers, debutantes, etc., and rather good looking men who have become tired in the city doing nothing and have determined to ease up until they get back enough strength to resist any urge to work.

Considerable leeway is allowed in the matter of bathing suits. Should a girl wear them at northern beaches she would get at least 15 days, but when she wears them at Palm Beach the editor of any photograph section will pay \$35 for a snapshot.

This photograph is valuable, because after publication in the Sunday paper it can be filed away and used when their young girl grows up, marries, and shoots her husband at her Long Island home.

The first aim of the average society leader at Palm Beach is to get a picture taken of herself, her husband, her two eligible daughters and her lap dog, on the beach, let the skirts drape where they may. This accomplished, the trip is a success. Sometimes she leaves out her husband, but rarely the dog.

The trip to Palm Beach takes 38 hours S. A. L. (Seaboard Air Line) and about eight months back by the I. O. U.

## Listening in on Eve

### SATISFYING THE FAMILY

"Well, where do we go from here?" asked the head of the family as the old-fashioned New England boiled dinner appeared on the table. "We've got to decide, because when our lease runs out in the spring I want to be ready to jump. I'm about through with town—I'd like to get outside."

"That would be grand," agreed his daughter, Alaska, who was in a hurry because her young man was coming to take her to the movies. "I think it would be perfectly wonderful to have a country place and week-end parties and—"

"Arise from your slumbers," interrupted her parent. "Get down to something side street and all will be well. I am conversing about a place for the family of an honest working-man to reside in, not an estate to eat up the family fortune in two gulps!"

"I could have a runabout, then, couldn't I?" demanded the younger son, Hector, enthusiastically. "And rabbits and a dog and—"

"Gee!" said Albert, the son who had begun to shave and wear his father's best ties, "why do you want to bury us in some hole out in the country? Why, there's nothing doing out there! When it gets dark everybody runs to cover, and cows and chickens and things keep you awake all night."

"Then let's go," his mother said, amiably. "If there's anything on this green earth that will waken you in the morning and cause you to rise without calling in the police department and a derrier to accomplish the deed I should like to have it introduced into the family. But how could I get into my club meeting—and I am sure the card club never in the world would travel way out there, wherever it is!"

"I will begin making out lists of my friends whom I can have out week-ends," said Alaska, brightly. "It is so important to get the right people together each time—"

"You'll have to turn in and help wash dishes, then," said her mother. "And there would be all the extra cooking, and I don't see where we could stow a lot of extra folks—and with food so expensive—"

"Why, if you live in the country you grow your own food," explained Alaska, patiently, glancing at her wrist watch. "Our eats wouldn't cost us anything at all, I'm sure."

"Nix on my wedding the onion bed," broke in young Hector in alarm. "You always have to weed things in the country, and if dad

has to come in town every day—"

"I suppose," remarked Albert gloomily, "it will work around to where everything will be pushed off on to my shoulders to do! I'll be the one who has to run the place and curdy the cows and dig the corn and husk the sweet potatoes, and I must say that it's a life for a man like me who can do things in the world. And will you tell me how I'd ever get in to the dances—and with fellows trailing after Rosamund the way they are, what chance would I stand with her? You oughta have some consideration for—"

"I'm considering my pocket-book," his father told him briefly. "I'd like to do a few things besides pay rent the rest of my life. I'd like a little peace and quiet—"

"I don't see why Henry is so late," fretted Alaska, again consulting her wrist watch. "If we never can have any company and nothing but large chunks of peace and quiet, I'd like to know how I am to keep my friends! I think it would be lovely to have pale blue notepaper with the name of the place on it in silver with the telephone address and postoffice and everything."

"Are there any movies there?" demanded Hector with anxiety. "How'd I get to the movies—"

"I suppose," remarked Albert, the elder, with bitterness, "that it will end in my giving up my career and becoming stoop-shouldered and having calloused hands, because somebody has gotta work out there to feed the family, and dad will say he has to keep his job, and it will all get wished on to me! Rosamund, she just hates the country, and she'd never—"

"I don't know what all the excitement is about," said the head of the family, finishing the last piece of cabbage with satisfaction. "I'm not moving you on to a ranch—I thought of taking a little house with a yard, somewhere near the end of the elevated. That's all!"

"Well, my goodness!" cried Alaska, jumping up as the front door bell pealed. "Why couldn't you say so instead of getting us all stirred up! I guess that notepaper would cost an awful lot, anyhow, so it's just as well—there's Henry now!"

"Huh!" sniffed Hector, the youngest, pessimistically. "I'll bet this family will be living in this same old flat a thousand years from now, I do! I'll bet you never move! I'm a-going to keep rabbits on the back porch right now—you see if I don't!"

### S. P. SHOP MEN HAVE GOOD BAND

Employees of the Southern Pacific general shops at Sacramento are elated over the success of their excellent musical organizations, consisting of a 35-piece band and a glee club of 48 voices, which have been developed at the shops and which have attracted favorable attention in many sections of the state during the last few years. Although organized as recently as 1917, during the liberty loan drives, the organizations have made great strides.

In a little over four years these two organizations have raised over \$14,000 for charitable purposes, have built up a music library valued at over \$30,000, and have equipped themselves with uniforms valued at several thousand dollars. Both organizations are under the direction of J. E. Weida, foreman of locomotive ma-

### WHAT DO YOU MEAN—RADIATOR?

VANCOUVER, Wash., Feb. 17.—"Do you sell alcohol for radiators?" a voice over the telephone asked Gug Benne: the other night.

"You bet," admitted Gug, and quoted his price.

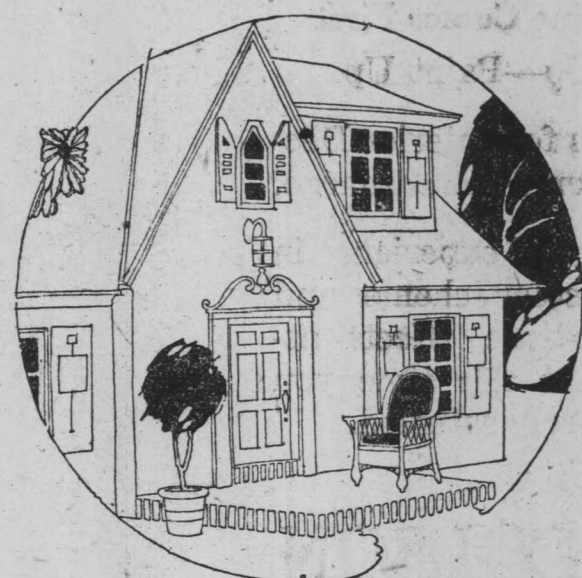

"That's cheaper than moon," replied the voice. "What kind of alcohol is it?"

"Denatured," replied Gug.

"Oh, that won't do at all," and the receiver at the other end was put down with a bang.

chine shop No. 1, at Sacramento. One of the customs of the glee club which has won approval is the Christmas carol singing. On Christmas morning at 5 o'clock the club makes the rounds of all the hospitals, city and county jails, to homes of shop employees who have been sick, and to any place where it is felt a little music would bring cheer.

# GLENDALE VILLA

## Open for Reservations Saturday and Sunday February 18th and 19th

On the high plateau between Tenth Street and Mountain Drive Boulevards. East and west lines being Laurel and Alameda.

## 1-2 Acre Family Homesites

Room for the kiddies, the chickens, the fruit and the garden.

Ample restrictions, but temporary homes allowed for six months.

Good soil, no waste land, every site a gorgeous view of mountains and valley.

Every city convenience.

Only 37 of these beautiful homesites. You will have to act promptly.

**REMEMBER—1/2 of an acre for the price of a 50-foot city lot**

## RED FLANNELS ARE NOW UNKNOWN IN WOMAN'S APPAREL

Latest Notes of Lingerie Indicate Sisterhood Is Vanquished

NEW YORK, Feb. 17.—Lingerie of crepe de chenes and georgettes has completely wiped the Sisterhood of the Red Flannels off the fashion map. For no article in feminine apparel has undergone the rapid change in recent years as has the undergarment. From clumsy, be-ruffled, starched cambrics they have grown more sheer each season until now one could easily hold a week's supply in the palm of one's hand. In fact, one Fifth Avenue house which specializes in lingerie has a tiny, patent leather suit case eight inches long called "le petit trousseau," which holds a nightgown, undervest and a combination set for the bride. Imagine a bride of a few years back trying to crowd her nightgown into it! One of the loudest laughs in the Ed Wynne show is occasioned by the appearance of a show girl in a nightgown of a decade ago.

The rise of the crepe de chene and georgette in the making of undergarments has been interesting to watch. How shyly we put aside our white linens and nainsooks as we gently stepped into our first pink crepe de chenes! As we have grown bolder, pinks have given way to more vivid colors and what we considered rather venturesome in former days we now cast aside as passe.

Matching underwear to the shades of one's gown is fashion's latest whim and no shade can be too colorful for the lingerie of this season. Hoses of grey fade into bloomers and petticoats of the same tone. For the navy blue costumes there are lovely shades of lavenders and purples.

The envelope chemise seems to have been discarded for the present and the chemise with bloomers or step-in drawers is the favorite sort of lingerie for just now. This combination is extremely practical, for the chemise can be made long enough to take the place of a petticoat or short enough to be worn with the heavier gowns and suits. And, as all gowns are made on straight body-fitting lines, these garments do away with unnecessary waist bands. These chemises are all made with the short Empire yokes with straps over the shoulders, the straps being made of the same material as the garment rather than of ribbon. They are made in gold and silver cloths to match the evening gowns as well as in the practical black. For the girl who dances there is one model that is entirely delightful, judged from a utility viewpoint. To the Empire bodice are attached ten panels, each one overlapping another, so that when standing, a straight petticoat effect is obtained, but one can dance the "toddle" with the assurance that one's petticoat cannot rip. The panels can be made in varying colors.

Most of the American made lingerie is made of crepe de chene, georgette, or rayon silk. From Paris we have the triple voile which closely resembles chiffon, but has body enough to give it wearing qualities. Another imported material is printed linen in colors, the printing being placed as a border in a black silhouette design.

Simplicity is the keynote found in all the newest models. There is very little lace except on some of the more expensive bridal suits, where baby Irish crochet is used as a yoke foundation. Ruffles and tucks are passe. Hemstitching in three closely placed rows is the favorite finishing for edges. In using georgettes, usually two colors are placed one over the other, giving a two-toned effect. French blue over majenta gives a charming shade, as does the palest green over rose. Night gowns and negligees of this type are peccot in scallops at the bottom and the two layers of georgette are joined only at the neck and arm holes by peccoting. One sees georgette finished in a running stitch of wool yarn a shade darker than the georgette. Heavy allover lace is used and finished this same way in chenille. Printed voile over plain voile gives a veritable soap bubble effect.

If Madame is ultra smart nowadays she uses the tiny bottles of perfume which come in sets of twelve bottles, and perfumes her lingerie according to its colors. For a violet robe she uses violet, for the pink or flesh toned garment she has the rose or carnation to choose from, and for the two-toned effect she selects cashmere bouquet or scents of Oriental mixtures.

**Fashion Tips**  
The Kiki frock, which is made in compliment to Miss Lenore Ulric, who is starring in the show "Kiki," is a long-waisted, full-skirted model and bids fair to become popular with the sub-debs this spring.

If one is fortunate enough to have a bit of old Paisley among one's heirlooms, the spring frock can hold no terrors, for some of the choicest of black satin gowns are trimmed solely with Paisley bands.

Straw hats studded with sea shells are worn with sport suits at the ocean resorts by some of the smartly gowned women.

Panels can do as many tricks as the long-tailed Marmoset. They are worn as side drapes, trains, looped up to form pockets and in some cases are used as sleeves.

In discarding the winter fur coat for garments of lighter weight, one must not make too sudden a change. It is best to choose a garment that will do duty in the early fall as well as in the first spring months. Long coats of woolen material which closely resembles the steamer blanket are

## TELLURIUM IS NEW OBJECT OF PROSPECTING

Ore Is Found to Be Valuable for Increasing Gas Efficiency

MADISON, Wis., Feb. 17.—Untold wealth awaits the producer of tellurium.

A base, dirty, silver metal discarded in gold mining as refuse, has been raised to exalted value by the announcement that a tellurium compound mixed with gasoline would increase the efficiency of internal combustion engines to a point where every automobile, airplane and motor would have to be rebuilt to stand the strain of the new power.

Liberty-motored airplanes with a present maximum speed of 142 miles an hour could reach a speed of 300 miles an hour. Pilvers capable of 42 miles an hour, with gear-ratios changed, could make 90 with each, under the new power. Dr. Victor Lenher, University of Wisconsin chemistry professor and a member of the National Research Council, was the center of the investigation that culminated in this new process, discovered and patented by Thomas Midgley and Thomas Boyd at the General Motors laboratories at Dayton, O.

There's a big horsefly in the stomach of this magic-lamp discovery, however, Dr. Lenher told the United Press.

"It will take 1,500 tons of tellurium a year to dope the United States' gasoline consumption," he said. "From known deposits there is a production of only 60 tons a year."

There simply isn't enough telluride to go around. That's what is going to make the fortune of some miner or assayer who discovers comparatively large deposits of the heretofore useless metal.

Two years of after-war research by the tellurium-selenium committee of the National Research Council, headed by Dr. Lenher, covering intensive detailed work of dozens of scientists all over the country in an effort to utilize these metals, were related by Dr. Lenher today.

The new process, he said, was comparatively simple, as regards execution. One part by weight of diethyl telluride, a chemical mixture of this "worthless" metal with carbon compounds, is mixed with 10,000 parts of gasoline. This mixture, when exploded after vaporization, in the cylinder heads of internal combustion engines, such as automobile, airplane and marine engines, affects the chemical and physical actions so that the engine under any circumstances of load or stress will not "knock," and will give a possible efficiency of 91 per cent, whereas 70 per cent is the highest possible efficiency gained through the use of present grades of gasoline.

Gasoline mileage will be doubled using this process. The speed and power of internal combustion engines will be boosted 30 per cent.

This discovery is the result of two separate investigations by chemists in widely different lines. The Research Council in an attempt to find uses for telluride and selenium "useless" metals found with gold, and chemists attempting to find the "why" of knocking in automobile engines.

Automobile engines don't knock at night, even on the steepest of hills, the chemists discovered. So they mixed water vapor with the gasoline vapor they fed gasoline engines, and they found it eliminated the "knock" and added power. But the difficulties of making his discovery applicable to motor cars prevented practicality.

The reason of the "knock" wasn't found, but they did find out how to eliminate it.

Then they experimented with other gases mixed with the gasoline fed their engines. They tried selenium oxychloride, a discovery of Dr. Lenher in 1920, when he was trying to find a practical use for selenium. This compound was even more efficient than water vapor in eliminating the "knock" and adding power. Then they tried diethyl telluride, and found it most efficient of all—in fact, it added so much power that ordinary gasoline engines, built to stand ordinary strains of gasoline explosions, couldn't stand the strain, and shake themselves to pieces in operation.

If a sufficient quantity of the metal is discovered, the discovery will revolutionize the gasoline-propelled world, Dr. Lenher said. Efficiency of everything that by "internal combustion" will be doubled.

Every gear ratio will have to be changed to accommodate the new power, he said, and a readjustment or rebuilding of every automobile, airplane and marine engine will be necessary to make possible the use of the new fuel.

So the world's waiting for enough tellurium.

For the information of seekers, tellurium is a heavy, silver or silver-black metal always found in its native or metallic state, or as an alloy of gold. It was discovered in 1782 in Telluride, Transylvania, Bohemia, in connection with the electrolytic process of separating gold from the baser metals.

Tellurium has also been found in connection with gold, copper and lead deposits in Australia and in Cripple Creek and Telluride, Colo.

It is a popular superstition among theatrical people that bald-headed men always forge to the front.

By the time a man reaches the age when he really knows something, he has also reached the age of discretion and doesn't brag about it.

fringed at the bottom and hang in loose abandon like the London top coat. They certainly have a style all their own and the necessary warmth for the crisp spring mornings.

## WEDDING ON BEACH IS PERFORMED

Here is something new in nuptials. A California miss and her lover, wishing to be different, arranged to have the knot tied on the beach near Los Angeles which they both frequented during the days of their courtship. The couple, Mr. and Mrs. Del Carmen, were married by the Rev. Dr. C. D. Cole.

## IRISH ARMY TO BE CUT DOWN

To Be Reduced to Peace Basis of Thirty Thousand

DUBLIN, Feb. 17.—Plans for the new Free State army are being completed in anticipation of the general election at which the people are expected to ratify the treaty.

Minister of Defense Mulcahy, chief of staff of the Irish republic army; O'Duffy, deputy; Chief of Staff O'Connell; Quartermaster General O'Sullivan, and other leaders are perfecting arrangements for transferring the republican army into that of the new Free State—in the process reducing it from its present strength of about 75,000 to 20,000 or 30,000 men.

The new organization will be identical, according to plan, with that of the old I. R. A., at least as applies to structure. It will be, the United Press learns, about as follows:

Six companies to a battalion (average); four battalions to a brigade; four brigades to a division, with a total of about fifteen divisions. The divisions will be divided into three commands, North, Midland and South, with five divisions to a command. Each division, nominally, would contain about 3500 men. Actually, some will be smaller and some larger. Companies, nominally, of about 50 men each, may be smaller or larger likewise.

It is expected, whatever the size of the army, that the fifteen-division plan, or something like it, will be retained so as to form the skeleton for a larger army.

Ranks in the new army will be those of the present one: Volunteer (private); squad leader (corporal); section leader (sergeant); second lieutenant; first lieutenant; captain; battalion commandant (major); brigade commandant (colonel); divisional commandant (brigadier general); commandant of command (major general), and commandant general, or chief of staff (general). There are no such names in the I. R. A. as those parenthesized, which show their corresponding rank to those of the United States army.

Richard Mulcahy, who became minister of defense when the De Valera government resigned, is expected to retain his present post. Owen O'Duffy, former deputy chief of staff, will be confirmed as Mulcahy's successor as chief of staff of the Free State army, which will succeed the I. R. A. Deputy Chief of Staff O'Connell, who was promoted from assistant chief of staff—he is one of the military experts of the army and incidentally a former officer in the United States army—also will retain, under the Free State, his present post. Quartermaster General O'Sullivan is expected to become assistant chief of staff.

Financial, fiscal and other legislation must be framed after the state itself is set up.

When tax legislation is framed, it should be somewhat heavier than is indicated by optimistic reports of a 5 per cent income tax, but it should not be more than half of that in Great Britain, at least at first.

One great advantage is relief from the burden of an 18,000,000-pound yearly contribution to the British treasury for imperial purposes. A disadvantage is the dual government in Ireland—complete governments for north and south in a country of less than 5,000,000 people. It will not be until, at some distant time, Ulster and the south are united that Ireland can be governed with real efficiency. That was why the recent Collins-Craig agreement, though it related principally to boundaries, boycott and railroads, was greeted here and in England as the most important feature of the new era in Ireland since the signing of the treaty.

Collins and Griffith and their helpers are business legislators. To the die-hards in the Dail they said frankly that despite any opposition they meant to give a square deal to Unionists in the south and to Ulster itself. They know that is the only way to prepare for the eventual union.

The agreement was important not only as the first meeting of the new leaders, but the first real meeting of north and south. Ex-President De Valera, who met Sir James Craig some months ago, was not the man. He seldom gets

## LEGION NEWS

Suggestions that expected savings in the appropriations be utilized are unwise in the President's opinion and congress should not try to anticipate such savings.

President Harding said he was aware of the strong sentiment in congress for adjusted compensation.

"I have spoken approvingly myself," he added, always with the reservation that the bestowal shall be made when it may be done without such injury to the country as will nullify the benefits of the ex-service men themselves which this expression of gratitude is designed to bestow."

The President explained that the chief difficulty in the bonus question lies in the cash payment, as there is no serious problem in beginning the allotment of public land or issuance of paid up insurance.

In view of the \$6,000,000,000 in federal obligations maturing within 16 months, issuance of several hundred million dollars in additional short term notes is unadvisable, the President said.

The republicans of the senate finance committee and the house ways and means committee went into conference this afternoon to study Harding's letter. Senator Smoot, Utah, sales tax advocate, doubted such a tax could pass the house but predicted a bonus bill will be passed and that the cash bonus will not be eliminated as Harding suggested.

WASHINGTON, Feb. 17.—Congress was torn today between legalizing a sales tax to pay a soldiers' bonus or dropping the cash bonus altogether, substituting paid up insurance or land grants.

This was the situation resulting from President Harding's letter suggesting the sales tax, or abandonment of the alternatives for the bonus.

The house ways and means committee, meeting this forenoon proposed to sound out sentiment on dropping the bonus and the sales tax propositions.

There was virtually no talk of postponement as suggested by Harding in the event of failure of the sales tax.

But just how congress would put through a payment plan was at any time since that body threw up its hands and sought counsel of the president.

The sales tax will have hard sledding. That is certain from the utterances of its friends and foes, but from the bonus standpoint there is still a chance of it going through.

Chairman McCumber of the senate finance committee, irrevocable advocate of the bonus, finds himself facing a hard situation. His constituents, the farmers of the northwest, are flooding him with notices not to vote for a sales tax. On the other hand, he has repeatedly declared a bonus must be passed and he, with Chairman Fordney of the ways and means committee, still predicts emphatically that it will be passed.

Senator Calder, New York, heretofore pro-bonus, has altered his position so now he stands against a cash bonus but for paid up insurance.

The American Legion, as is known, is agreeable to paid up insurance but has voted several times strongly in favor of the four-fold plan on which the bonus so far has been founded.

Further in a conference than a monologue, Ireland's wrongs. There is a great deal of passion and prejudice on both sides of Ireland. The only way is will be ended by the sort of conference Michael Collins and Sir James Craig held—where business is discussed and business interests considered.

It will be years, probably, before there is any sort of political union between Ulster and the Free State. But if, as indicated, north and south can live in harmony, they should both be prosperous. They need each other's products, and with the agreement will be able to trade freely.

Ulster is industrial, the south largely agricultural. Even without union, they should both enjoy prosperity. The south, completely its own master, is able to look forward to a fight for prosperity which, while it may be hard, should be victorious.

## OREGON HIGHWAY BLOCKED WITH ICE

Glacial Action on Mass Threatens Total Destruction

PORTLAND, Ore., Feb. 17.—The task of freeing the famous Columbia river highway from its load of snow and ice is the big problem before the public and state highway commission of Oregon.

The scenic road, which winds along the Columbia river, penetrating the gorge and furnishing one of the main lines of communication between the seaboard and the interior, cost \$1,343,000 to build, but it is now serving as an investment loss.

Not only are the taxpayers who bore the cost of building the highway out of the interest on their money, through non-use of the road, but the glacial action of the great masses of ice and snow are doing damage to the engineering work of the structure itself.

On the concrete viaducts, many of which are noteworthy feats of engineering skill, masses of frozen sleet are moving slowly and irresistibly with downward and outward motion, literally tearing apart the reinforced concrete structures which carry the road along precipitous mountain sides. Clearing the highway has been the subject of a continuous wrangle ever since the terrible storm which blocked all kinds of traffic through the Columbia river gorge, but railroad tracks are free, wires are up on new poles, yet the highway is useless. Next August is the time set for the last impending drift to melt away should not artificial means effect the road's release prior to that time.

## HOW I FEED MY HENS FOR EGG PRODUCTION

In the morning I give a wet mash consisting of wheat, mixed feed and screenings, with a prepared milk (ten to one); a good proportion of chopped green barley, meat scrap and low-grade flour; a small proportion of charcoal.

All of this is mixed with the "ten-to-one." The "mixed feed" consists of screenings not to exceed 8 per cent, wheat bran 58.17 per cent, wheat shorts, 15.62 per cent, crude fat, 4.05 per cent, crude fiber, 8.55 per cent and the balance wheat.

In the afternoon I feed them enough green feed (green barley) to satisfy the flock in each yard, consisting of about one thousand chickens.

One hour later I feed a dry mixture of one-half milo maize, one-quarter wheat and one-quarter paddy rice. This completes their feed for the day. About twice a week I throw wheat on the floors of the houses in the straw litter, to make them scratch. This they do when they are kept inside and when I wake them up in the morning by turning on the electric lights.

Of course, there are some that do not feed as I do, and still get wonderful results. In fact, I have never seen a district that has so many different methods of feeding as Petaluma, and at the same time get such splendid results. It may be that this has made the success of this district. The different methods are carried out with one objective—greater yields.

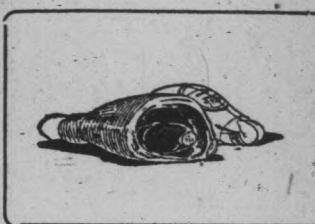

## FRUIT IN A BACK YARD

Dr. E. M. Wilder of Sacramento, a member of the city council and a physician and surgeon, has a hobby. His back yard, in the city of Sacramento, 40x60 feet in size, produces 55 varieties of fruit, including an orange and a grape fruit tree. This is accomplished by the growing of many different kinds of fruit on one tree. For instance, he has a cherry tree onto which have been grafted six varieties besides the kind produced by the original tree. The top of this tree has been grafted to Japanese flowering cherries, so that Mrs. Wilder has flowers for the table. On six plum trees Dr. Wilder has 32 varieties of the fruit, which are nearly all the kinds of plums to be found in California catalogs.

As a result of recent earthquakes in Chili, large mountains in the Andes range sank an average of 160 feet, a sufficient distance to disclose peaks beyond that had been hidden from sight.

## Truths in Epigram

There is no refuge from confession but suicide; and suicide is confession.—Webster (1782-1852).

We hold that the most wonderful and splendid proof of genius is a great poem produced in a civilized age.—Macaulay (1800-1859).

A friend may well be reckoned the masterpiece of Nature.—Emerson (1803-1882).

### INFLUENCE OF PONZI

A few months ago in Boston one Ponzi was revealed as the most frenzied of financiers, and yet there was method to be recognized in his madness. For a time his peculiar abilities permitted him to live in splendor. The jail to which he was introduced one day was in violent contrast in all its appointments with the mansion to which he had been accustomed. His ride in the police patrol wagon was the first he had had for quite awhile in anything less luxurious than a limousine.

When they put Ponzi into prison, shorn of all the booty he had garnered from the humble folk who had trusted him, it was not deemed that his example was to excite emulation. Nevertheless there has been a crop of imitators. The Chicago police are engaged in harvesting it. The great difference seems to be that the later financiers had the Ponzi greed without the Ponzi brains. When they were caught they were, apparently, as poor as any of their deluded clients.

Victims of this type of fraud are to be pitied of course. They are preyed upon because of their ignorance, and it is possible that they are not to be blamed for ignorance. When a man solicits the money that the poor people have saved in dribbles, and tells them that they are to have interest in reality greater than any legitimate enterprise could produce, he of course is a swindler. The authorities may send him to the penitentiary, and often do. This neither brings back the lost savings nor prevents the robbery of a fresh set of the gullible. The game goes on constantly. No way seems to have been devised for checking it.

### BROLASKI MUST SERVE

When Harry Brolaski was convicted of dealing in illicit whisky he seemed to regard the matter as a rather diverting incident. Even the imposing of a sentence of two years at McNeil's Island failed to induce a serious state of mind on his part. He at once appealed, and now the appeal has been denied. Brolaski has not been heard to express himself since, but doubtless the affair has taken on at last a really somber aspect.

Brolaski is well known in this end of the state. At one time he was mayor of Redondo, but found so little time to attend to municipal business that he was not urged to stay in office.

To punish a man whose deals were of the magnitude of those engaging the attention of Brolaski is likely to have salutary effect. It will do more towards establishing belief that prohibition has a meaning than could be accomplished by penalizing a swarm of the petty bootleggers who do a bottle business in the alley.

To strike a Brolaski is striking somewhere close to the source of supply.

McNeil's Island penitentiary is said to be a comfortable place, as such institutions go.

### THE OIL SUPPLY

A telegram from Indiana says the oil shale of that state is sufficient to keep the whole country supplied with oil for a century at the present rate of consumption. Probably this is an exaggeration, and yet there is cheer in the optimism of the figures.

From time to time some prophet of evil arises to ejaculate that the oil supply is approaching exhaustion. Such a statement could not be authentic. Nobody knows the magnitude of the deposits. The pessimists had not figured on Indiana's shale at all. Not all such shale is in Indiana, either.

There is no reason to fear a shortage of oil, especially as scientists believe that other methods are destined to take the place of those requiring combustion of oil. It is quite likely that the only oil demanded by the populative mechanism of the future will be that required to lubricate the wheels.

Electricity is being generated from water power. Such savants as Steinmetz believe that the current thus procured will supercede all other means of driving automobiles, and supplying heat and power.

After all, the earth seems fairly well designed for meeting the needs of the people who live on it.

### FIGHTING THE BONUS BILL

Buren Fitts, past commander of the American Legion, department of California, has been in Washington, studying the bonus question. He returns full of indignation at some of the plans that have been proposed. It is his view that advocates of gasoline, motor vehicle and theater ticket taxes, to meet the cost of the bonus, are merely taking their cue from Secretary Mellon. Buren discerns their purpose to be that of making the bonus itself unpopular. Mellon is known to have discouraged the bonus to the full extent of his power.

A correspondent in deprecating the bonus says: "No one opposes the government doing all possible for the disabled. Why not wait until those who are well get older and really need assistance before we dish money out of the treasury with so lavish a hand?"

Or in other words: Why keep a promise?

It is no wonder that the men who seek the bonus have scant patience with the plea of poverty set up on behalf of the richest nation in the world. They see money wasted in many ways. They observe roads that did nothing in time of war, asking and getting substantial sums. They believe the money would have been found to keep the American army in Europe, had that been necessary. They realize that billions are being saved by the change in naval construction plans, and yet that these billions would have

been forthcoming, had the plans not been changed. To the republican party there falls the duty of passing a bonus measure. As a mere matter of political wisdom the party could not shirk the duty. And as a matter of principle, there should be no desire to shirk it.

### BLACK HAND METHODS

Arrest of a band employing Black Hand methods is the best thing that police authority has accomplished in this community of late. The men were caught in Los Angeles. One of the number was wounded so that there are hopes that he may not survive. It is possible that the exposure of this band of criminals may explain the murder of Taylor, still so much of a mystery.

As to an organization known as the "Black Hand" there always has been some doubt. There is not the slightest doubt, however, that desperate men designing to rob, and quite willing to kill, have taken advantage of the general belief that such an organization exists, to spread terror, and to levy blackmail. As a rule the Black Hand is charged against certain groups of Italians. The prisoners caught in the net this time appear to be Russians.

To brave the direct threat of death requires courage. The plotters in this instance made the mistake of tackling the wrong man. Instead of complying with their demands, he set a trap for them by seeming to comply. They fell into the trap quite satisfactorily.

In the effort to clear the southern end of the state of criminals it has been necessary to send many to the penitentiary. This involves great expense. Society must be protected, and yet it is to be regretted that it has to pay so high a price for protection. Therefore when such degenerates as these black-mailers get within range of police guns, to shoot straight becomes a very satisfactory course of treatment.

There will be a tendency to withhold admiration from the enterprise that has made Ralph Oberchain the hero of a moving picture. In lending himself to such a scheme he was guilty of excessive bad taste. In the first place, he is not heroic material. The spectacle he has made in permitting a woman to humiliate him, and then flying to her aid to demonstrate how well he liked the treatment, had a baldly ignoble aspect. In the second place the woman in question is on trial for murder, and the picture will be regarded as meant to create an influence in her favor. Moreover, the movies are having troubles of their own, and it was unfair to thrust upon the industry this additional burden.

Nine men have been held to answer for the collapse of the theater in which nearly a hundred people perished at Washington. Similar matters have reached such a stage before now, but seldom have been carried farther. Architects and builders know how to erect a structure that will not fall down. When they erect the other kind, the infliction of a severe penalty is the only method of protecting the public against future disaster.

## The Glut of the Superfluous

By DR. FRANK CRANE

There is, always has been and always will be, a great famine of the essentials and necessities.

There is, always has been and always will be, a glut of the superfluous.

Nothing is more needed in this wretched world than good cooks, good housekeepers and good mothers. And it is difficult to get a good servant for love or money, as every woman knows. Of all the young ladies of my acquaintance, including college graduates, young ladies at home, and plain flappers, I do not know of one who aspires to cook. For some reason, the Almighty in His infinite wisdom knows why, this most important and delightful profession is looked upon with scorn.

I know what I am talking about, for I myself like to cook and can serve you up a mess of hot biscuit and fried chicken as well as any cordon bleu I know of.

It may be, and often is at times, difficult to get a pound of decent butter at the grocery store, and if you inquire at the butcher shop for real pork sausage like as not you will be told that they have none today; but there is no day in the year that you can not buy a pearl necklace, if you have the money, and beauty parlors, where they take beautiful, straight Anglo-Saxon hair and make it look like the wool that should have been on the top of the head of old Uncle Ned, are always open.

People are always pestered me to buy things I do not want, including encyclopedias, and stocks and bonds that are certain to rise in price, and all manner of labor saving devices for office use. There is profit enough in these things to keep an army of men employed peddling them from door to door. Yet when I start out to get something I do want, and want badly, I can not find it.

If I ask at the grocery for oatmeal that has been cut and not smashed, if I inquire for the old-fashioned window-shades that stay put and do not have to be jerked, if I inquire at the tobacco store for pipe tobacco that will not remove all the hide from the inside of my mouth, if I ask at the restaurant for some nourishing soup with vegetables in it and not all thickened up with flour, that tastes like printer's paste, I am told that there is not any.

It sometimes seems that the whole business and social world is organized to give you what you do not want.

In fact, one of the simplest rules for success in the world is simply to find out what people want and sell it to them.

And suppose that you are starting out to find a wife. "Where a man," says Richard King, "can have a choice of a thousand girls who cannot even stitch a button on a pillow case, the feminine expert in domestic economy will go on economizing all by herself, until the only man who takes any real interest in her is the undertaker."

No official in human society is so important as the school teacher. In any just scale of human value, this profession ranks above all others. And he gets about money enough to keep alive and maintain himself in a mediocre condition of shabby respectability, while Douglas Fairbanks, Mary Pickford and Charley Chaplin, whose sole occupation it is to divert our idle moments, shake their legs and contort their faces to the tune of millions of dollars a year.

(Copyrighted by Dr. Frank Crane)

## THE LISTENING POST

Thinking is a great thing.  
Not reading so much.  
Or remembering what has been told to us.  
Or listening to somebody else say what he thinks.  
But to think.

To think originally and systematically and analytically and clearly.  
To dig down into things for yourself.  
And make discoveries.  
Of the truth.

That is what philosophers and scientists and biologists and zoologists and others of the kind have been.  
Diggers.  
Diggers into the undiscovered country of fact.  
And truth and knowledge.

Fact and truth and knowledge, sometimes in ledges in the hills of mystery and the unknown.  
And then the digger comes along.  
The digger after fact and truth.  
The scientist or the philosopher or the engineer or somebody else of the thinking class.

And he digs.  
Down into the groundwork of things.  
He goes through stratum after stratum.  
And at last he strikes the ledge he was looking for.  
The gold of truth or fact.

It may be an ill looking stone he brings up.  
It may not glow and glitter and shine.  
But it rings true.  
It is the precious metal of truth.  
And will well serve the world.

That is original thinking.  
Discovery.  
Finding why something is so.  
Because we have to know why something is so before we can make use of the fact that it is so.

JAMES W. FOLEY.

## SONGS OF THE POETS

Enchantment—By Madison Cawein (1865-1914)

The deep seclusion of this forest path—  
O'er which the green boughs weave a canopy;  
Along which blue and anemone  
Spread dim a carpet; where the Twilight hath  
Her cool abode; and, sweet at aftermath,  
Wood-fragrance roams—has so enchanted me,  
That yonder blossoming bramble seems to be

A Sylvan resting, rosy from her baths  
Has so enspelled me with tradition's dreams,  
That every foam-white stream that, twinkling, flows,  
And every bird that flutters wings of tan,  
Or warbles hidden, to my fancy seems  
A Naiad dancing to a Faun who blows  
Wild woodland music on the pipes of Pan.

## OBSERVED AT A GLANCE

By HENRY JAMES

The Mexican revolutionist hardly gets started nowadays before a firing squad stops him.

Swindlers take millions from poor people, and yet when apprehended, generally are broke.

Probably the Finnish minister of the interior was not known by name in this country until somebody shot him.

Margot Asquith called at the White House and was pleasantly received. Probably she will make the circumstance the basis for one of her nasty slurs.

The time for writing the epitaph of Robert Emmett, as set by himself, seems to have been postponed again.

The people of this country are learning to experience the flu without making any fuss about it.

It is to be feared that the indeterminate sentence works too much in favor of the prisoner with a pull.

Many people wonder mildly why wrestling is classed as a sport.

Miss Olive Presler says that women of the west do not smoke. And nobody disputes a lady.

Senator Pat Harrison has taken a slap at the supreme court. This is believed to complete the list. He has slapped everything now.

## EASTERN POINT OF VIEW

HAS MR. BRYAN FORGOTTEN?

[Detroit Free Press]

In a brief interview in Washington, William Jennings Bryan remarked that the prospects for the election of a democratic congress next fall are good. He thinks the revenue bill will hurt the republicans, but the first reason he gave for his hope of success was this:

"Farmers are in a worse condition than they have been for thirty years. Laborers are dissatisfied because wages have been reduced quite generally while the cost of living has not been reduced to the same extent. Business is not good generally. The country is not so prosperous as it was two years ago."

Mr. Bryan is not quite accurate when he mentions a period of thirty years, but he was speaking off-handed, and doubtless referred to the time following the panic of '93 when farmers were in a sad state. That happens also to be the time when our William Jennings Bryan ran for President of the United States on a calamity platform. William counted on the platform for a victory then, and he does not seem to have learned anything since.

WHY BLAME STUDENTS?

[Pittsburgh Gazette Times]

The New York college presidents meant to be severe on college students when one said: "The modern college is a high-class country club." Unless in fitting a young man for a lucrative profession, and the other declared "enjoyment of luxury and ease for four years and a little study on the side constitute satisfactory fulfillment of requirements for a college

## JUST BETWEEN OURSELVES

By DELLA STEWART

Modern youth is brutally frank. In the days of our mothers gallant swains dared not to suggest a mode of dressing to their innamoratas, much less mention particular garments. Girls were charming mysteries. Now they seem to be charming revelations. Note the suggestion given boldly in print by those Dartmouth undergraduates in inviting their girl friends to their winter carnival.

"We saw you at the last carnival standing in the snow, clad in pumps, silk stockings, and a fur coat. We were sorry—and you did not look as happy as you tried to. So remember that there will be snow, and that you will have to stand in it, and that it will be cold. We wish you to look pretty and warm—not cold and expensive."

Like a weather prediction—"fair and warmer"—isn't it? But it only goes to show that the modern masculine leans to sensible suggestion more than to silly sentimentalism. And modern woman; quick to catch the direction of the wind as it blows in regard to the other sex, is responding. Woolen hose, broad-heeled shoes, for sports, these are more often seen than the silken ankles and French-heeled pumps of recent years, and foolishness.

After all, why should the silkworm have anything on the sheep? Both are harmless, but the latter is much more to be admired in its native habitat. If you don't believe it, ask the girls themselves. Why cannot there be woolen winsomeness as well as silken sweetness? It's mostly up to the girl inside.

And as far as the lads are concerned, there were devoted lovers and marriages aplenty in the days of chignons, bustles, and trailing skirts. So for their comfort, the girls may be sure that love will find them whatever the attire.

degree." But the charge of futility made against the college course does not lie in appreciable degree against the men enrolled as students. If any institutions of higher learning are not fulfilling their mission the fault is with the authorities. No man can sneak through college, "spending his time smoking cigarettes and wasting his father's money and his own time," without the consent and connivance of the faculties, the responsible heads of which are the presidents.

One of the gentlemen quoted asserts the system of elective studies is at the root of the failure of colleges. Why not, then, abolish the system? Young men are sent to college to be trained. If they are given more freedom than is good for them, they are not to be blamed for taking advantage of the condition. If suitable tasks are set for them and they are required to maintain grades through performance of work essential to their education, they will become a credit to the institution enrolling them; if they do not they should be excluded, which would be to the credit of the college.

MIXED MONIERS

[Washington Star]

Ladies who desire to retain their maiden names cannot prevent proud husbands from parading themselves in reflected importance by taking their wives' names.

ALIAS BLOC

[Washington Star]

Language grows more refined. In the old days what is now termed a "bloc" would have been called a "gang."

## COMMENT ON DAY'S NEWS

By HENRY JAMES

Probably there has been nothing more contemptible achieved even by the yellow school of journalism than recently in relation to Hollywood. The mysterious murder of a director of moving pictures has been made the occasion for exploiting many intimately personal matters that any decent newspaper man instinctively accepts as legitimately and sacredly personal and private to the individuals concerned.

In regard to the victim of this crime, whose character has been warmly defended from most respectable source, there have been printed scandalous assertions in support of which no iota of proof has been advanced.

Letters found in his premises did not concern the public. At no stage of proceedings, short of the actual trial of some one accused, could they have become the business of the public, even if then.

Hollywood is a section of Los Angeles, a city in which, deplorable as the truth may be, murder is common, and Hollywood has been singularly free from contributing to the sanguinary total. Since it has happened to be the scene of a murder at last, there seems a tendency to put the whole section at the bar of justice as though it were collectively responsible. At the same time occasion is taken to hold up to contempt the members of a great industry. They are in no way related to the episode collectively. They are dragged in wantonly and meanly. Concerning their affairs tales resting on a frail foundation of conjecture are told, the recital being an example of insolence, and of desire to do harm.

Doubtless Ford had thought over details quite awhile before he made the government an offer for Muscle Shoals. When the members of congress ask that he make certain changes, he declines quite frankly. There's the offer, he says in effect, adding "take it or leave it."

The people of the United States seem to favor Ford. They know the Muscle Shoals proposition is a big thing, and that Ford therefore is one of the few individuals able to handle it. Moreover, the fact that lobbies are at Washington fighting his plans, is not particularly pleasing.

Ireland has disappointed the world. Only the element that rejoices in a row, or wins a living by promotion of discord looks with equanimity upon the situation there.

All hope for an immediate peace has been dissipated, the exodus of British troops stopped. What a pity!

Human nature seems about the same the world over, although it may find different methods of expression. In this country, for example, if a man of seventy marries a girl of sixteen, there are warm expressions of disapproval. Nobody hesitates to say the man is an old fool.

Such a marriage as this was celebrated in Spain recently, and the warm-blooded Spanish started a riot in which eight persons were seriously wounded, the happy groom among the number.

Members of the narcotic squad of the New York police are said to have destroyed recently a lot of dope worth \$3,500,000. It is to be hoped that they did so, if they had the dope.

Occasionally there have been reports that liquor squads had destroyed large amounts of moonshine and kindred poisons, and some of the stuff, it is feared ran into a new set of bottles instead of into the sewer.

People inclined to be scary might as well dismiss the fear that the army is to be cut to next to nothing and the navy to a little less. The administration has no such intention.

A nameless correspondent writes (rather badly, it is painful to admit) to say that he does not think much of any man whose picture appears daily along with his editorial product.

It is fair to explain that such picture does not indicate entry into a heavy contest.

One reason the picture is there is that any honest writer despises an anonymous assailant, because of the anonymity. He regards such an individual much as a sensitive nature might view a very dead cat. Therefore he admits his authorship not only by name, but hangs his mug alongside the accentuate identity.

## WATCHING THE PARADE

By JOHN PILGRIM

Henry Dorr came in the office this morning to pay me a visit. Looked like a million dollars, did Henry. Well-cut suit, fancy necktie, good shoes, fine hat, new gloves.

"What are you doing now, Henry?" I asked.

"Same old thing," said Henry.

So I reported the fact to my wife, as in duty bound, and she stated that Henry is one of the very finest sons she has ever known. Perhaps THE finest son, in fact. For years he has stayed in a one-horse store in a one-horse town because his mother is an invalid. No one but Henry is permitted to lift her from her bed to her chair and back again. Henry must be on the job each evening at dinner. After dinner Henry reads her to sleep. She can stay awake a mighty long time, too. If she went to sleep early Henry might get a chance to get out with the boys.

"His devotion to his mother is wonderful," said Mrs. P., with awe in her tones.

Wonderful is right. Also Henry is a fathead. He has had scores of chances to get out of that one-horse store and that one-horse town and make something of himself, but he has refused because his mother would not let him go. It is true that he has climbed almost to the top of the store-ladder now, but, after all, that top isn't very high. The procession has passed him. He is doomed to stay in that one-horse town all his life. There were years when he was ambitious. He used to study at night after his mother had gone to sleep. He used to plan big things. There was a girl or two Henry might have married if it had not been for Ma. Now he doesn't care. He is reconciled to a life of petty detail and bachelorhood.

Do not think that I am attacking that sacred relation in which a mother stands to her only child. But this particular mother is a selfish old cheat. When Henry goes to New York on his buying trips she gets along first-rate. She has a maid to look after the house and a little electric car to get about in and a telephone at her elbow and all the latest books and magazines. It's pretty soft for Mother. But she has spoiled the life of her son.

"Mother would die if I left her," Henry used to say.

Well, maybe. But—to get practical and cold and iron-faced for a moment—what of it? Henry's dead now from the neck up.

## DO YOU KNOW THAT?

The direction in which the fibers run in fiber-board boxes has been found to have a considerable effect upon the serviceability of the boxes.

The United States geological survey estimates that 9,000,000,000 barrels of oil recoverable by methods now in use remained in the ground in this country January 1.

The evaporation from the leaves of plants causes a slight cooling in their neighborhood.

Mice destroyed one-twelfth of the young apple trees of Maine in a single year.

A mixture of oatmeal and fat in the form of a paste is considered by the English to be the best bait for rat-traps.

A recent English writer states that he marched for 11 days in Somaliland with a string of camels, none of which had a drop of water during that time. Camels endure both the hottest climates on earth and the bitter cold winters of the Asian plains.

# MRS. BROWN OF EAGLE ROCK WINS EXPRESS PRIZE

Second Award In "Stardust" Contest Goes to Clever Local Woman

Mrs. Lillian Noyes Brown, of Eagle Rock, was the receiver of the second prize awarded by the Los Angeles Express in the "Stardust" essay contest recently. This is the second prize Mrs. Brown has won in two months, the other being the fourth prize out of 60 in an electrical contest, the prize being a Bluebird electric washer. A \$100 prize was given in the "Stardust" contest, and her story is to be sent to New York to enter a national contest, and Mrs. Brown has a fine chance of winning another prize for her story writing.

# PORTLAND CITY HALL HAS RATS

PORTLAND, Ore., Feb. 17.—There's a rat for every person in the United States. This does not include mice, according to a recent government report. Every person pays a fraction of a cent a day to maintain his rat. But Portland taxpayers are doing more than their share. Rats infest the city hall and gambol in playful abandon over the mayor's desk—sometimes—and hold conventions in the basement at all times.

"Kernel" Simmons, custodian of the city hall, has declared war, both on his own rat and every one else's rat. He has nine varieties of traps, and boasts of 21 different kinds of poison.

The Japanese pick cherry blossoms and cure them in salt, using them to make a sort of tea.

# ATTRACTIVE SPORT SUIT AND GOWN FOR EARLY SPRING OR SOUTHERN RESORTS

The sport suit and gown above were displayed in a smart New York shop. They are for early spring or southern resort wear. The striking sport suit was of roshanara crepe and the dress of chinchilla satin, with floss embroidery.

# Fashions for Americans

A blouse and two dainty sleeve style suggestions are offered in today's sketch. The blouse, which may be a tuck-in or a hip length over-skirt model, is of white satin in a very soft weave trimmed simply with bands of Paisley silk. The bishop sleeves may have the band just above the elbow and cuffs also of figured fabric, or the cuffs may be all white. The blouse is a slip-over.

The upper one of the two sleeves illustrated, also of the bishop type, is trimmed with bands and a cuff of Paisley or other figured silk, and the lower sleeve is slashed from wrist to elbow, revealing the arm. The wide band of figured fabric that trims the upper part of the sleeve is cut in two sections at the elbow, supplying a narrow band for each side, and a band and flared cuff of the printed material finish the edge of the sleeve.

The hip length blouse is the one most prominently featured for early spring wear, and many smart little waistcoat styles are being shown as accompaniments for spring suits. One pretty slip-over blouse on waistcoat lines recently seen was of white satin, the neck slightly V-shaped and wide enough to allow the head to slip through easily. The lower part of the blouse was slightly full on either side at the waist line. A hip length peplum with an opening in front and little set-in pockets to simulate a mannish vest was attached to the blouse, and all the edges were finished with a narrow band of dark colored satin. Another blouse of white satin trimmed with bands of piping of dark colored self fabric buttoned real waistcoat fashion.

A Blouse and Two Sleeve Suggestions are Offered in the Sketch.

Pongee blouses of the tailored type are regarded as very smart models for early spring. Usually they are trimmed with self fabric ruffles, or stitching in brown.

# PADDOCK MAKES WORLD'S RECORD OF ALL VICTORIES

Ten World's Speed Records Unexcelled, More Laurels

LOS ANGELES, Feb. 17.—The official tally sheet gives Charley Paddock, sprinter, ten world's records, which in itself is a world's record.

In addition to this, since he started running in grammar school, Paddock has run over 120 races, ninety per cent of which he has won.

All of which should insure his niche in the Hall of Fame—such as it is!

Here are the world's records which Paddock holds:

90 yards—National tryouts, Paddock field, 1921, 8 4/5 seconds.

100 yards—Berkeley-U. S. C. meet, Berkeley oval, 1921, 9 3/5 seconds.

100 yards—A. A. U. championships, 1921, Redlands, 9 3/5 seconds.

100 yards—National championships, Paddock field, 1921, 9 3/5 seconds.

100 yards—National tryouts, Paddock field, 1921, 10 1/5 seconds.

130 yards—National tryouts, Paddock field, 1921, 10 1/5 seconds.

150 yards—National tryouts, Paddock field, 1921, 14 1/5 seconds.

200 yards—National tryouts, Paddock field, 1921, 19 seconds.

220 yards—Berkeley-U. S. C., 1921, 20 4/5 seconds.

100 meters—A. A. U. championships, Redlands, 1921, 10 2/5 seconds.

200 meters—A. A. U. championships, Redlands, 1921, 33 4/5 seconds.

300 meters—A. A. U. championships, Redlands, 1921, 30 1/5 seconds.

100 yards—Stanford-U. S. C., Palo Alto, 1921, 9 3/5 seconds.

100 yards—National tryouts, Paddock field, 1921, 9 3/5 seconds.

# BURBANK BUSINESS DIRECTORY ISSUED

Forty-Eight Page Compilation by Secretary of Chamber of Commerce

BURBANK, Feb. 17.—A complete and convenient classified business directory of Burbank has just come from the printers. It was compiled by R. W. Colburn of the Chamber of Commerce and is entitled: "Burbank in Fact and Picture."

It is a neat, attractive book of forty-eight pages, and to many residents of this growing city it holds a surprise, for it shows far more business than is realized by even many of the business dealers themselves, and it is authentic, at least up to the last reading of proof, but a directory for a city which is growing and changing as rapidly as this one cannot be complete for more than about twenty-four hours. However, the new directory will, generally, be reliable for several months, and is a most convenient book to have on the business desk.

Canvassers for a Los Angeles Directory company have been working in the city for a new city directory.

# CALIFORNIA HAY LEADS 1921 CROPS

SAN FRANCISCO, Feb. 17.—A million dollars a day. That's the value of California's crops, according to the California cooperative crop-reporting service at Sacramento. And you'd never guess what the principal crop is!

It's hay! This one item in 1921 was worth \$55,000,000. By that count the Golden State has plenty of ordinary hayseeds. Oranges came second with \$49,000,000.

# CARPENTERS LOCAL TO HOLD MEETING

Mayor Robinson and City Manager Will Speak

Carpenters Local No. 563 will hold open meeting at K. P. Hall, corner of Park avenue and Brand boulevard, Monday, February 20th. Mayor Robinson and City Manager Reeves will be the orators of the evening.

Glendale Painters and Plumbers Local are especially invited to attend.

All mechanics and live wires are invited to hear the men that are putting Glendale on the map. According to the announcement of the Local, "The Woman's Label League No. 400 will serve refreshments."

# CLAM CROP IS BADLY FROSTED

SAN FRANCISCO, Feb. 17.—Pity the poor clam. During the January cold spell when it was below freezing and snow fell, the clams suffered and died in large numbers, according to a report of Deputy State Fish and Game Commissioner H. D. Becker.

The Pismo clams—the variety found along the California coast—suffered greatly at all points, but the tragedy attained the greatest proportions around San Luis Obispo, according to Becker.

It is said that every man and woman in Iceland is able to read and write.

# CHILD'S SCHOOL SHOW IN L. A.

Exposition of P. T. A. and Assistance League Will Be Novelty

LOS ANGELES, Feb. 17.—Los Angeles is preparing to stage one of the most novel expositions ever conceived, one in which the exhibitors will all be school children of the elementary grades, and the objects put on display will be made by the youngsters themselves.

It is anticipated that there will be 25,000 exhibits of every description, including personal pets, when the children's exposition, as it is to be known, opens its doors April 8. The exposition will be so large that it will require two tents 250 by 125 feet, and 350 by 175 feet, to house it.

The exposition has the official backing of the board of education and will be put on by the Parent-Teacher association and the Assistance League of Southern California, the latter a charitable organization. Proceeds will be devoted to child welfare work.

The exposition was conceived by Robert E. Wells, general manager of the Assistance League, former San Diego exposition director, and local theatre man.

In addition to the exhibits, several special events will be staged, these to include a gorgeous motion picture stars' pageant, outdoor concerts by world-famous artists, and other features on a large scale.

## GLOWING BEAUTY OF POPPIES MARKS ORANGE SHOW

Judge Bledsoe Will For-  
mally Open Exposition  
Tomorrow

SAN BERNARDINO, Feb. 17.—  
With exhibits all in place, greater  
in number than ever before and  
more beautiful—if that be possible  
—the Twelfth National Orange  
show will open its doors on Friday  
evening with an address by United  
States District Judge B. F. Bled-  
soe of Los Angeles, a native of  
San Bernardino. President Bell  
will officially declare the show  
open, and Hon. J. B. Gill will pre-  
side.

The illuminations and decora-  
tions are even more elaborate  
than ever before and are strictly  
Californian in their conceptions.  
The mission idea predominates,  
while the golden poppy, the Cali-  
fornia bear and great vases are  
used with splendid effect.

Feature displays are numerous  
and of very high class, several  
being high works of art. The  
fruit on the racks is of high qual-  
ity and competition for sweep-  
stakes this year promises to be  
keener than ever.

The opening ceremonies on Fri-  
day evening will be preceded by  
a dinner at which invited guests  
from all over the state will be  
present. Elaborate daily pro-  
grams of band music, high-class  
vaudeville and strolling musicians  
have been provided, while special  
programs will be put on daily by  
various communities. On Satur-  
day the Southern California Edi-  
torial association will be the guest  
of the show. It is also "Rim of  
the World" day and nearly 800 re-  
sort owners will be guests of the  
San Bernardino Merchants' asso-  
ciation at a banquet.

Sunday will be Pacific Electric  
day, while special programs have  
been provided for each day next  
week.

## GENERAL GOETHALS TACKLES BIG JOB

SPOKANE, Wash., Feb. 17.—  
General George Goethals, builder  
of the Panama canal and the man  
who is to decide just how the state  
of Washington and the federal gov-  
ernment will go about developing  
the Columbia Basin irrigation pro-  
ject, is busy with his investigations  
here.

The state is paying Goethals sev-  
eral thousand dollars to decide  
whether it will be better to take  
the water needed for irrigating  
the vast lands of Adams, Grant,  
Lincoln, and Franklin counties  
from the Pend Oreille river near  
Spokane and convey it in viaducts  
to the thirsty soil, or pump the  
water from the Columbia at some  
point on its wide loop about the  
lands contained in the project.

History spends half its time in  
repeating itself and the other half  
in getting itself revised.

## Foley's Friendly Fancies

OLD STUFF

JAMES W. FOLEY

The shoe clerk led me to a seat  
And looked at me and at my feet.  
Then looked and paused and looked again  
And at the shelves and me and then  
He said: "We have a cushion shoe—"  
And I said: "Young man, that will do.  
You keep your cushion shoe! What rot!  
Bring me the snappiest shoes you've got!"

The incident near gave me blues!  
Do I look old—like cushion shoes?

The well known tailor looked at me  
Then flipped his bolts for me to see  
And spread his leg with cloth and stood  
For me to say if it was good.  
And then he said: "Some modest gray

Is what you're after, I should say!"  
"Why should you?" hotly then I said.  
"I want some live stuff striped with red!"

The stupid ass! Perhaps he thought  
Me some old has-been. Well, I'm not!

The haberdasher went and got  
Funereal ties without a spot  
Of brilliant color, glum and black.  
And I said: "Boy, you take those back.  
I'm no pall-bearer! I'm not dead!  
I want some yellow, blue and red.  
You've shown me mourning-crepe enough.  
Where do you get that solemn stuff?"

I'm middle-aged, I will agree,  
But that old man stuff—not for me!

## BURBANK SCOUT MEETING CALLED

Glendale and Eagle Rock  
Ordered to Send  
Delegates

For the purpose of raising Bur-  
bank's quota of the district scout  
budget for 1922 a mass meeting  
will be held this evening, in the  
Burbank grammar school audi-  
torium, beginning at 7:30 o'clock.

A program which is similar to  
that put on at the recent scout ban-  
quet in Glendale, has been arrang-  
ed, though it is claimed that it will  
be considerably shorter. Mayor  
Spencer Robinson and Harry Gir-  
ard will live things up a bit with  
their songs and merriment. Harry  
A. James, the well-known story  
teller, will give one of his best en-  
tertainments. The Burbank Choral  
club is scheduled to appear and a  
picked patrol of Burbank boy  
scouts will give a snappy exhibi-  
tion of scout activities. Scout Ex-  
ecutive E. B. DeGroot of the Los  
Angeles scout council will be the  
speaker of the evening.

In accordance with the general  
plan of the district finance com-  
mittee a stock sale will be launched  
with shares selling for \$10 each.  
The Burbank finance committee  
which is headed by W. P. Coffman,  
expects to realize at least \$1000.  
Both Glendale and Eagle Rock will  
send representatives to the meet-  
ing to help boost the project.

## GLENDALE VILLAS HAVE BIG YARDS

The constant growing demand  
for subdivision homesites or real  
family size, where there is room  
for fruit, flowers, garden, a little  
chicken yard and lots of room for  
the growing kiddies, has been  
given consideration in the laying  
out of "Glendale Villa." The lots  
in this tract are of generous size,  
80x249 feet, at figures under the  
most moderate prices being asked  
for the congested city lot.

Glendale Villa is located on the  
high and level plateau in the north-  
west part of Glendale, in the midst  
of the most splendid homes of this  
beautiful city of wonderful growth.  
Every site in this tract has a  
commanding view of the unequal-  
led San Fernando valley, and the  
beautiful Verdugo hills to the  
north. This property lies between  
Tenth street boulevard and the  
new Mountain drive boulevard,  
both of which are completed to and  
beyond the tract.

Glendale Villa tract consists of  
37 sites only, no glens, no ar-  
royos, no hills—not a foot of waste  
land, and it has soil that will grow  
anything. It will have restrictions  
sufficient to protect the investment  
lot, but these will not be prohibi-  
tive. The idea of the villa is  
"homes for people of moderate  
means." Temporary dwellings will  
be allowed for a period not to ex-  
ceed six months.

Prospective purchasers of prop-  
erty should remember that in Glen-  
dale Villa there will be every city  
convenience, including deliveries.  
The selling agents for this tract  
are Kiergaard and Mullaly, 207  
West Broadway. Reservations will  
be opened at the office on Satur-  
day, February 18, and will con-  
tinue throughout the Sunday fol-  
lowing. It is expected that the 37  
sites will be reserved during these  
two days.

The prices in lots of this tract  
range from \$1100 to \$1800. Five  
per cent discount is allowed where  
all is paid in cash.

You can light a room by burning  
a match—but not very satisfactorily.  
You can also "advertise" prop-  
erty through using placards—with  
about the same degree of satis-  
faction.

## TOURIST RATES WESTWARD CUT

Western Railroads An-  
nounce Cuts in Trans-  
portation Cost

CHICAGO, Feb. 16.—Further  
slashes in tourist rates on west-  
ern railroads were announced to-  
day.

According to the new rates it  
will cost tourists \$20.80 less to  
take round trip tour west this  
summer than in 1921. This brings  
the fare to the lowest point since  
1917.

Diverse routes and stop-over  
privileges are allowed under the  
new rates.

The roads announcing the cut  
are the Atchafalaya, Topeka and  
Santa Fe; Chicago, Milwaukee and  
St. Paul; Chicago and Northwest-  
ern and the Union Pacific. It was  
reported in railroad circles that  
the Chicago and Great Western  
would announce more drastic rate  
cuts Tuesday. This would precipi-  
tate a rate slashing war between  
the carriers, it was believed.

## BRIDGE THE BAY PLAN IS PUSHED

SAN FRANCISCO, Feb. 17.—The  
"bridge the bay" movement will  
be pushed with renewed vigor, de-  
spite the rebuff received by the re-  
fusal of the East-Bay communities  
to co-operate, according to leaders  
of the San Francisco Motor Car  
Dealers' association.

"We will not be discouraged by  
obstacles," said one of the asso-  
ciation's spokesmen. "San Fran-  
cisco must have bridge communi-  
cations with the east-bay district,  
and the fact that the Modjeski-  
Davies plan has been turned down  
by Oakland will not affect our  
plans to go ahead with the move-  
ment, and to push the project.  
The Modjeski-Davies plan is not  
the only feasible one."

Oakland and Alameda refuse to  
co-operate in the movement for  
fear the railroad terminals will be  
moved from that side of the bay  
to San Francisco. They will only  
enter the project provided it is stip-  
ulated that no railroad tracks are  
to be included. This the San  
Francisco backers of the project  
are unwilling to agree to. Berkeley  
is not enthusiastic because the  
proposed bridge would be too far  
distance from that community to  
guarantee fast commuter service.

## MARE ISLAND TO BUILD TARGETS

VALLEJO, Cal., Feb. 17.—Mare  
Island navy yard will start building  
six new target rafts during the lat-  
ter part of this month. While no  
official estimate on the cost of the  
rafts is available, the general es-  
timate by navy yard men is that  
the rafts will cost \$300,000.

The building of the target rafts  
was authorized by the bureau of  
navy, and yard experts are now  
busy making estimates of the  
probable costs, and preparing the  
preliminaries for construction.

The rafts will require the serv-  
ices of about 60 skilled workmen,  
steadily employed during the en-  
tire course of construction. The  
rafts are expected to be finished  
late in June or early in July.

An Irishman was involved in an  
argument with a Scotsman, and de-  
peatedly called upon "good old St.  
Patrick" to witness the fact that  
he was telling the truth.

Much annoyed, the Scotsman  
said: "To the blazes with St. Pat-  
rick!"

But the son of Erin promptly  
countered with "To the blazes with  
Harry Lauder, then!"

## COZY CORNER AS DIVORCE CURE IS URGED BY PARSON

Says Church Should In-  
stitute Them in Aid of  
Young Folks

CHICAGO, Feb. 17.—Cozy cor-  
ners are a cure for divorce in the  
opinion of Rev. John Thompson,  
pastor of the First Methodist  
church, Chicago's "marryin' par-  
son."

He suggests that every church  
and parish house have one, two  
or three cozy corners for the girls  
who live in hall bedrooms.  
"For," he told the United Press,  
"young people never have made  
love, and never will, under an arc  
light."

In place of legislation he would  
substitute a comfortable parlor.  
He charged that the angels of  
the churches are so busy setting  
up bars at the exit from marriage  
that they have neglected the entrance.

"It is better," he suggests, "to  
give two young people a cozy cor-  
ner by themselves where they may  
become acquainted. Corners are  
very important in my opinion. And  
if there is to be a chaperone—it  
should be one who knows a couple  
is company and three a crowd," he  
added.

**SALES MANAGERS CONTROL**  
SAN FRANCISCO, Feb. 17.—The  
Sales Managers' Association of  
San Francisco, with a membership  
of 100, controls sales of \$1,500,000,  
according to a conservative esti-  
mate made by Richard D. Quin-  
lan, president of the organization,  
in a report to the San Francisco  
Chamber of Commerce.

Dry books may satisfy a thirst  
for knowledge.

## We Announce

the Opening of the  
**BROADWAY SHOE STORE**

at  
**312 East Broadway**

on  
**Saturday, February 18th**

The policy of our store will be that of  
**EXCLUSIVE SHOE OUTFITTERS**

We will carry in stock a wide range of quality  
styles in Men's, Women's and Children's Shoes.  
The well known name of Roberts, Johnson and  
Rand—shoes made by the International Shoe  
Company, whose reputation as the largest and  
finest shoe manufacturers in the world, gives  
them unquestioned supremacy.

While we expect to sell shoes of solid worth and  
quality—we also expect to price them most  
reasonably.

We would ask that YOU be the JUDGE.

Try our Line of Steaks and Chops—Don't Forget Our Prices Sell Them  
We carry a full line of Fruits and Vegetables, Butter, Eggs and Cheese

## East Broadway Market

1100 EAST BROADWAY

## A Proclamation of Freedom for Women

In the past more hours were spent over the gas range  
than with any other utility of mankind.

## DIRECT ACTION GAS RANGES

NO BOTTOM IN OVEN

Cut each drudgery from  
hours to minutes.

They cook ketchup all  
day or bake beans all  
night without watching.

Because of their con-  
struction no flame  
touches iron. This  
means the sides of the  
oven only cage the heat  
until the baking is done.

This design means, too, far less fuel; no rusting, no  
condensation, and results browned on all sides alike.  
Moral: Look at this range before buying. It is what  
you have been longing for. Try it free and get more  
freedom; especially a freedom that pays its own way.  
There are 50 users in Glendale. All are delighted.
